

Wall Mount D101-A XF

For explosion-protected panoramic network cameras

Wall Mount D101-A XF is an electropolished 316L stainless steel wall mount, specifically designed to achieve the best panoramic view from D101-A XF P3807 camera. The mount allows the camera to be mounted in two ways: horizontally on walls, but also pendant on ceilings. To enhance safety and security during installation and usage, a hole can be used for the API DROP secondary retention cable package. This is usually used in offshore applications. The cable passes through the mount hole, as well as the two holes found on top of D101-A XF P3807 camera.

- > **Electropolished stainless steel finish (SS 316L)**
- > **Resistant to corrosion**
- > **Sturdy and safe**
- > **Compatible with D101-A XF P3807**
