❶ On app Home interface, select the video doorbell, and then tap **Device Details**.
❷ Tap **Ring Linkage**. The wireless chime list is displayed.
❸ Select the chime on the list, and then tap **Save** to add it.

03 Troubleshooting

▶ **Q: How to restore factory settings?**
Tap and hold the pairing button or the reset button for 10 seconds. The blue light will be on and then off, and voice prompts "Device is undergoing hard reset."

▶ **Q: The device cannot work normally?**
Restore default settings of the device, and then configure the device again.

▶ **Q: How to enter wireless configuration mode?**
Tap the pairing button, the indicator light flashes blue and voice prompts "Wi-Fi hotspot is enabled."

▶ **Q: The device is not online?**
Check the LED indicator light. If it is flashing blue, it means that the device failed to connect to the network. Make sure that the wireless router can connect to the network. If the network connection is successful, please configure network for the device again.

▶ **Q: Connection is overtime?**
a. After the device has enabled hotspot, your smartphone doesn't connect to the hotspot for a long time, which leads to connection overtime.
b. Before the app prompts waiting to connect to the network, the device already starts configuration.
