ENHANCED PARKING MANAGEMENT License Plate Recognition Technology

ENS Series

License Plate Recognition Technology

- ▶ Automatic License Plate Recognition and capture in real-time

Vehicle Access Control

- ▶ Effective vehicle entry and exit management with efficient vehicle access control system

Automated Intelligence

- ▶ Automated predefined list of “authorized” and “unauthorized” vehicle license plate numbers for seamless entry, exit, and superior record retention

Efficient Parking Management

- ▶ Rapid license plate recognition for seamless entry with event linkage (opening barrier)
