Monitors

Professional Video Wall Monitors

Professional Video Wall Monitors produce sharp, true color images that can be used in security rooms and a variety of other applications. These LCD displays are the perfect solution for Ultra High Definition (UHD) video walls. With an integrated video wall processor, and the ability to take a single video source and display it across multiple panels, it is possible to create *huge virtually seamless displays that are an excellent choice for Command & Control Centers where fine details are critical. *Arranging 9 Razor-bezel Professional Video Wall Monitors into a 3 x 3 configuration creates a 165" 4K Ultra High Definition (UHD) image.
