- 1 Electric Strike Body & Faceplate
- 2 #12-24 Faceplate Mounting Screws
- ³ #8-32 Body Mounting Screws
- ④ #12 x 2 1/2" Wood Faceplate Mounting Screws
- S Plug In Connector

- ⁶ Deadlatch Tabs (742-75 only)
- 7 #6-32 x 5/16" Deadlatch Tabs Screws (742-75 only)

HES, Inc.

22630 N. 17th Ave. Phoenix, AZ 85027 800-626-7590

- ⑧ Keeper Shim (742-75 only)

Electrical Specifications

ELECTRICAL RATINGS FOR SOLENOID				
CONTINUOUS DUTY	12VDC	24VDC		
Resistance in Ohms	41	160		
Amps	.29	.15		

Solenoids are rated at +/- 10% indicated value.

MINIMUM WIRE GAUGE REQUIREMENTS				
SOLENOID VOLTAGE	12VDC	24VDC		
200 feet or less	18 gauge	18 gauge		
200 - 300 feet	16 gauge	18 gauge		
300 - 400 feet	14 gauge	16 gauge		

1

Installation Directions

CAUTION! Before connecting any device at the installation site, verify input voltage using a multimeter. Many power supplies and low voltage transformers operate at higher levels than listed. Any input voltage exceeding 10% of the solenoid rating may cause severe damage to the unit and will void the warranty.

Prepare Strike

- 1. Attach the faceplate to the strike body using the #8-32 Body Mounting screws as illustrated on page 3, Diagram 2.
- 2. If using the LCBLCM (Latchbolt & Locking Cam Monitor), see Diagram 1 for wiring instructions.
- 3. The strike body ships as either a 12 or 24 volt unit and is not field selectable. Verify the available voltage is +/- 10% of the rated voltage of the strike body.

Prepare Frame

4. If using a mortise lockset, calculate offset using Diagram 3 on page 3.

2

5. Prepare frame using the template for your strike located on pages 4-6. If using the 742-75, see the 742-75 template on page 3 to install the Deadlatch Tab and Keeper Shim. Note: Drawing shows only one shim.

Finish Installing

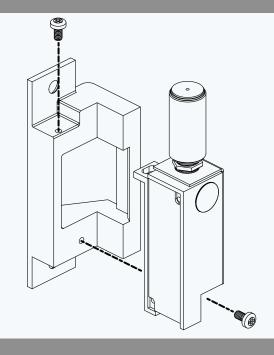

- 6. Connect the Plug In Connector to the electric strike, and connect wires from the Plug In Connector leads to the power source.
- 7. Install the electric strike unit in jamb cutout, using the #12-24 x 1/2" faceplate mounting screws for metal applications, or #12 x 2-1/2: wood screws for wood applications.

Brown	Common		
Blue	Normally Open		Brown
Yellow	Normally Closed		
			Blue Yellow

Installation Directions

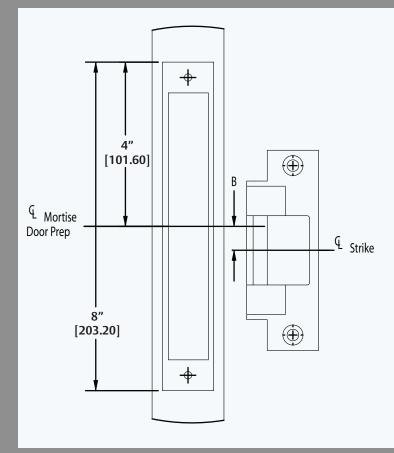

Diagram 2: Faceplate Attachment

To install the 700 series electric strike body to the faceplate, install two #8-32 Body Mounting screws as shown. Make sure bolts are tightened and secured.

Keeper position can be adjusted by loosening the #8-32 body mounting screws, and repositioning the strike body as needed. Retighten body mounting screws after adjustment is made

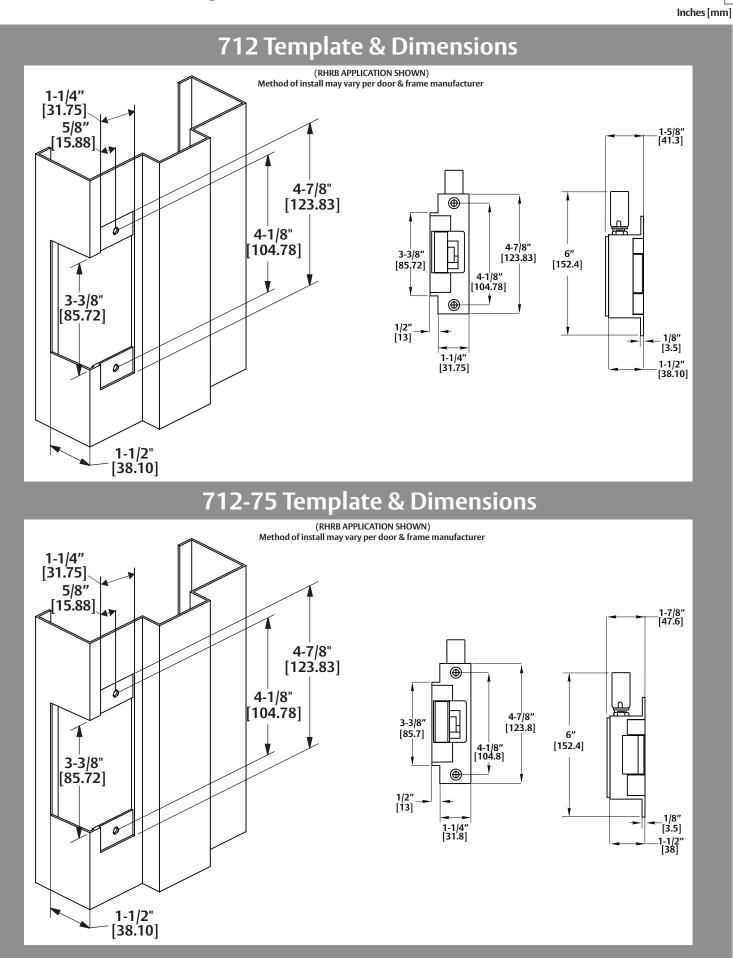

Diagram 3: Determining Mortise Offset

MORTISE LOCK	В	
CORBIN/RUSSWIN	01	
ARROW, FALCON	0"	
BEST 34H-37H	1/4"	
SARGENT (8200)	3/16"	
YALE (8800)		
SCHLAGE	3 /4"	
YALE (8700)	7/8"	
BEST 45H & 47H*	1/8"	

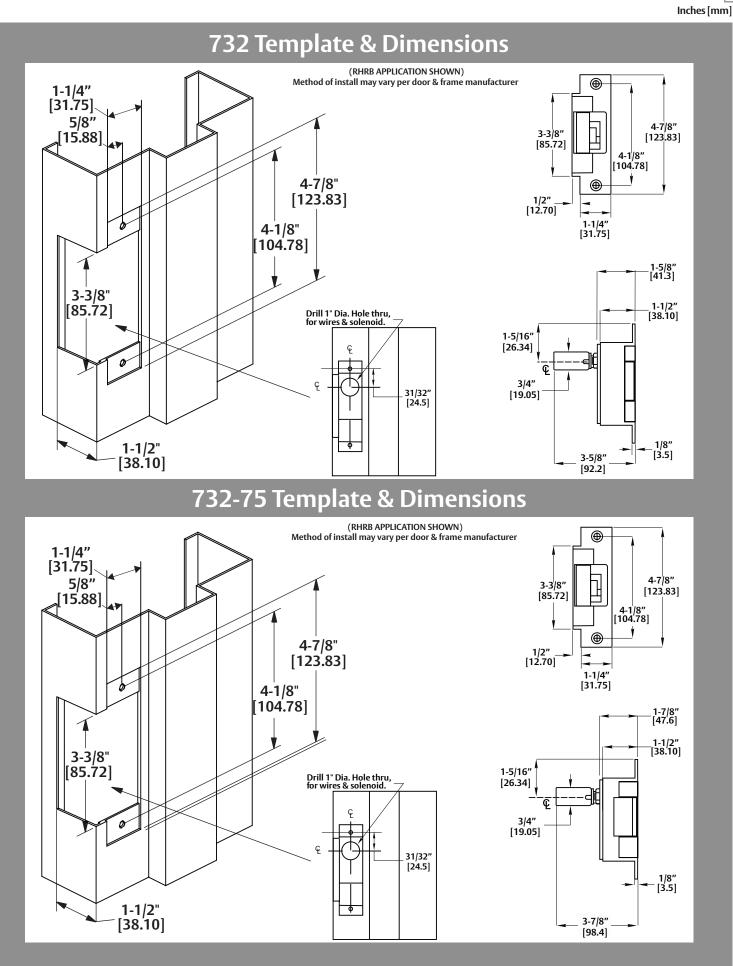

*Best 45H & 47H are recommended for use with the 742-75 only.

Several deadlatch tabs are included for use with the 742-75. Choose, and position the deadlatch tab so that the deadlatch is depressed when the door is closed, while staying clear of the latchbolt.

Install the deadlatch tab using the #6-32 x 5/16" deadlatch tab screws as illustrated.
