Made in the USA

The Larson Electronics CLP-BR-1.5-12-FLX-M2M Hazardous Location Flex Coupling is designed for flexible connections and positioning of conduit systems in explosive environments. This accessory is constructed of brass, with a flexible length of 12" and a conduit size of 1-1/2".

The CLP-BR-1.5-12-FLX-M2M offers versatile positioning of connections and components for conduit systems in hazardous locations. Featuring brass construction, this unit provides a flexible length of 12". The accessory measures 9.76" long with a 1-1/2" conduit opening. The flexible coupling is constructed of brass with bronze braid coverings. This unit features a male/male configuration at both ends.

This hazardous location unit is suitable for Class I, Divisions 1 & 2; Class II, Divisions 1 & 2 and Class III work sites.

Applications: Petroleum refineries, chemical and petrochemical plants, paint spray booths, food manufacturing buildings, automotive repair, flour/grain processing and storage centers, industrial facilities, conduit systems and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
