

## Aluminum Extension Pole for EPL-16C Series Carts 3 Feet - Powder Coated Glossy Blue Finish Instruction Manual

The EPL-16C-xx-SP0010 from Larson Electronics is an extension pole for existing EPL-16C series carts.

The EPL-16C-xx-SP0010 is constructed from durable and strong aluminum and is powder coated with a glossy blue finish for resistance to damage. The glossy blue color also matches the finish on the EPL-16C carts for a uniform look. This extension pole raises the light head on the EPL-16C series carts to be three feet above ground.

### INSTALLATION

Place extension pole over center slot of wheelbarrow cart. Tighten hand screw to secure pole. Place light head over extension pole and tighten hand screw. The wheelbarrow cart is now ready for use.

**WARNING:** *Be sure all hand screws are tight before transporting! Use caution when maneuvering near inclines or drop offs.*

### MAINTENANCE

- Perform visual, mechanical and electrical inspections on a regular basis. We recommend routine checks to be made on a yearly basis. Frequency of use and environment should determine this. It is recommended to follow an Electrical Preventive Maintenance Program as described in NFPA 70B: Recommended practice for Electrical Equipment.
- Do not operate if damaged. Contact manufacturer for repair.

THESE INSTRUCTIONS MAY NOT COVER ALL DETAILS OR VARIATIONS OF THIS PRODUCT FOR YOUR EQUIPMENT OR INSTALLATION REQUIREMENTS.
