**Bulb Socket for the T8 Fluorescent Bulb and LEDT-24W LED Light Tube - 2 Foot Configuration**  
**EPL-24-SCK-T8-LED24W**

**Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).**

These sockets are specially made to fit the T8 Bulb/Prongs, as well as our own Larson Electronics LED tube lamps. The sockets allow the current to run to the tubes in order to produce light. These units fit the T8 fluorescent and the LEDT-15W, 2 foot bulbs. What makes these unique is that they are non-shunted, so they can be wired up for separate hot and neutral pins.
