The EPL-UN-ALU-1 is an ATEX/ IEC Ex certified Union, used to connect two pieces of conduit together, or to attach a conduit to a junction box, fitting, or other device. This aluminum coupling permits the removal of equipment without having to turn or remove the conduit. The EPL-UN-ALU-1 is rated for use in Class I Divisions 1 & 2 hazardous locations.

This aluminum union consists of either a female to female option or male to female option. The female to female coupling is a 1" hub size with a 2" diameter and 2-7/16" length. The male to female coupling is also a 1" hub size with a 2-1/32" diameter and 3-5/64" length. These unions feature strong and durable aluminum construction with tapered threads (NOT), and are threaded for rigid conduits or IMC. The hazardous location union is ATEX/IEC Ex certified, and meets UL Standards 886 and 1203, as well as CSA Standard C22.2 No. 30.

At Larson Electronics, we do more than meet your power and lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
