Made in the USA

The EXP-WRL-TRSM-MTR Explosion Proof Remote for the [EPL-TL-2X10W-C-EXWR Signal Light](#) is a battery powered, wireless remote control is designed to give operators the ability to more accurately monitor and manage the traffic flow at industrial refueling stations as well as the process and machine productivity at manufacturing sites. This remote is rated for use in Class I Divisions 1 & 2 Groups C & D, Class II Divisions 1 & 2 Groups E, F, & G, and Class III Divisions 1 & 2.

The EXP-WRL-TRSM-MTR Explosion Proof Wireless Remote Control for the [EPL-TL-2X10W-C-EXWR Signal Light](#) is designed to give operators the freedom and mobility to monitor traffic and processes more effectively. This mobility increases worksite safety by allowing hazards to be detected more quickly by the signal operator, creating a faster response time to potential dangers. Likewise, mobile monitoring produces a more efficient traffic and/or process flow.

This battery operated wireless remote is built to endure harsh conditions and heavy duty use while providing safe, dependable service to operators. This unit is housed within a rugged IP67 rated copper free, non-sparking aluminum body and features a single push button. To switch between signal colors, the operator simply presses the push button at the top of the device.

The explosion proof signal receiver for this remote can be found here: [EXP-WRL-TRSM-SLV Explosion Proof Wireless Signal Receiver](#)
