Replacement 2 Foot Fluorescent Bulb. Ideal for spare or replacement bulbs on 2 foot fluorescent Larson Electronics fixtures, from explosion proof hand lamps to explosion proof paint booth fixtures. T-Series replacement 2 foot fluorescent bulb.

Fluorescent lamps are not voltage specific, meaning there are no low voltage or high voltage fluorescent lamps. The fixture`s battery/ballast system converts the incoming voltage to the voltage that the lamps require. This applies only to fluorescent lamps and NOT LED tube style replacement lamps.

Price per case - lamps sold in cases of 12.

Lamp Options:

Our most popular standard lamp configuration uses 54 Watt High Output T5HO fluorescent lamps producing 5000 lumens per lamp (10,000 lumens total). However, we do have options, including:

F24-T5/850/HO – 24 watt, 2000 lumens per bulb, 20,000 hours life, 5000 Kelvin color (Suffix –T5HO)

F24-T12/HO – 24 watt, 1650 lumens per bulb, 9,000 hours life, 4100 Kelvin color (Suffix –T12HO)

F17-T8/841 – 17 watt, 1325 lumens per bulb, 24,000 hours life, 4100 Kelvin color (Suffix –T8)

We offer a choice of bulbs with all of our explosion proof fluorescent fixtures. However, we standardize on the T5HO bulbs. Many of our customers, including Naval bases, shipyards, oil rigs and petrochemical processing plants operate in very cold conditions, and T12HO operate best in those environments. The T12HO bulbs are also the least expensive to replace. T-8 bulbs are inexpensive as well, but you trade off lower light output for longer life. Finally, T5HO bulbs cost about 2 times that of the other bulbs but offer high light output and long life.

NOTE ON LAMPS: *There is some confusion on T12 bulbs. There are 2 types of T12 bulbs. The older T12 bulbs ran on magnetic ballasts. Those ballasts have vanished and the T12 bulbs that work with those ballasts are vanishing as well. All of our explosion proof fluorescent fixtures use electronic ballasts and the F48-T12/HO bulb is widely available and low cost to replace. We use Philips bulbs and they plan to continue the T12 series indefinitely, as does GE. In fact, GE is now selling an electronic ballast replacement for T12 based fixtures that formerly operated with their magnetic ballasts.*

Frequently Asked Questions (FAQ)

Options:

-Bulb Type

Example: -T12HO

Bulb Type	
T12HO	-T12HO
17W-T8 4100K	-T8
17W-T8 5000K	-50KT8
24W-T5HO 5000K	-50KT5HO
24W-T5HO 4100K	-41KT5HO
T8H	-T8HO
