

## 6 cell Lithium Ion Battery for RUL-9 and RUL-10 Instruction Manual

### NOTICE

- Before using the lantern or battery charger, read all instructions and cautionary markings on the unit.  
**CAUTION:** Do not attempt to use that charger to recharge any other product. Also do not attempt to use any other charger to recharge your lantern.
- Do not incinerate or leave the battery pack near a heat source such as a radiator, fireplace, stove, or any other heat-generating appliance. When exposed to high temperatures, the battery pack could explode and possibly cause a fire.
- Do not disassemble or mistreat a battery pack or store a battery pack where it could come in contact with metal objects that could short circuit the battery pack terminals. The resulting current can cause high temperatures and damage to the battery pack and also can cause burns and possibly fire.
- Please refer to local ordinances concerning battery recycling and disposal.
- Use of this product for other than a lighting device is not recommended. Manufacturer specifically disclaims liability for other than recommended use.
- Be sure to check the AC adapter voltage rating to ensure that the required voltage and frequency match the available power source. On the right side of the lantern is a low battery LED indicator.  
\*For 4 and 6 cell battery lanterns, approximately 30 minutes of runtime remains when the indicator is activated.

### BATTERY REPLACEMENT

1. To replace battery pack, simply remove the six screws from the bottom of the lantern and remove the cover.
2. Disconnect the battery from the plug and replace with new battery pack by joining male and female plugs together.
3. Make sure to place battery pack to rear of lantern housing such that is in contact with rear screw posts.
4. Replace cover and install screws and verify that cover is flush against lantern housing. **Do not over-tighten!**

### CHARGING

**WARNING:** Use only adapter supplied with charger. Use of any other adapter may cause damage to the charger and lantern.

It is recommended to fully charge battery prior to first use. Refer to RUL-9/RUL-10 instruction manual for charging the lantern battery.

THESE INSTRUCTIONS MAY NOT COVER ALL DETAILS OR VARIATIONS OF THIS PRODUCT FOR YOUR EQUIPMENT OR INSTALLATION REQUIREMENTS.
