

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

The XLE-EL-CD-TL-6OZ is a can of thread lubricant that contains 6 ounces. This lubricant is used to prevent galling of pipe threads when threaded into a coupling, junction box, or other conduit threading. Use of this lubricant insures a quick release of undamaged male and female threads when parts are disassembled. For used in temperatures ranging from 0° to 125°F. Recommended to be used on hazardous location lighting fixtures.
