DC: Double Combination
Many of our products are available in Double Combination (DC). DC locks have a combination body on both the interior and exterior. DC locks require a code to unlock from both the interior and exterior. Codes on exterior and interior do not have to be the same.

MG: Marine Grade
Many products are offered in the Marine Grade (MG) finish, which is designed to extend the life of the finish when exposed to corrosive elements of saltwater environments. The Marine Grade finish closely resembles the Satin Chrome finish, unless otherwise specified.

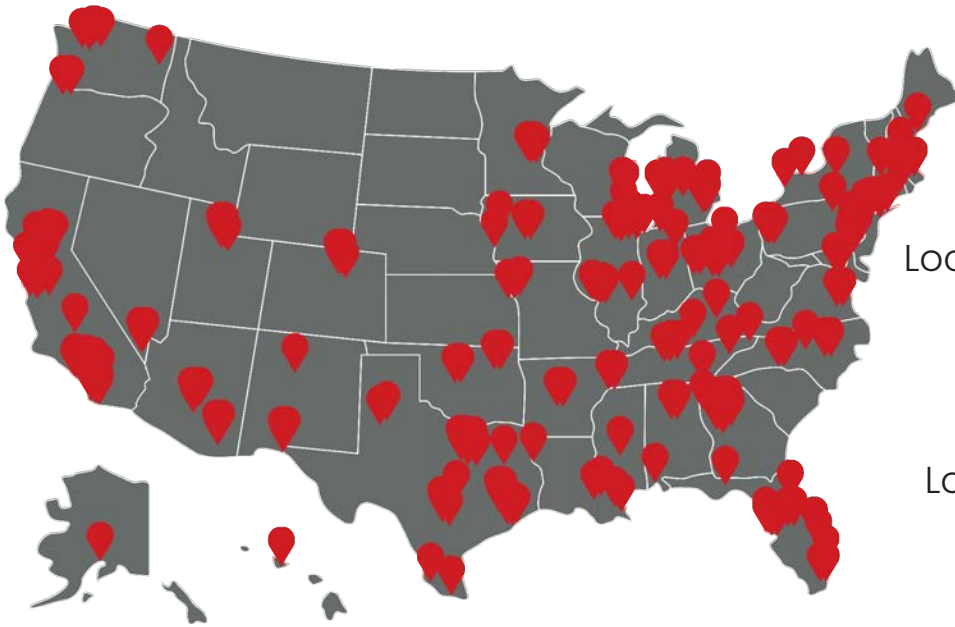

KO: Key Override
Many of our products are available in Key Override (KO). Locks with Key Override have a Limited Lifetime Warranty which covers manufacturer defects to the keypad.

ACCESSORY NAME	COMPATIBLE WITH	PART #
