Established in 1973, Mul-T-Lock is a worldwide leader in the developing, manufacturing, and marketing of high security products for Institutional, Commercial, Industrial, and Residential customers. Mul-T-Lock holds hundreds of patents for our innovative products, which include mechanical cylinders, locks and padlocks, electromechanical and access control locking systems, automatic assembly and key cutting machines, and complementary accessories. With a highly skilled workforce of nearly 600 employees, Mul-T-Lock's factories are fully automated, using state-of-the-art technologies, including robotics and customized machinery, the majority of which is manufactured in-house.

As an integral member of the ASSA ABLOY group (the global leader in door opening solutions), Mul-T-Lock's international experience has earned Mul-T-Lock a highly esteemed and distinguished position within ASSA ABLOY as a rare global brand. Mul-T-Lock's global presence, our understanding of security needs from all around the world and our dedicated customer support team enable us to offer comprehensive service for our partners and consumers.

We distribute our vast arsenal of field proven, high security solutions in more than 100 countries and are equipped to support over 100 million end users through the auspices of 25,000 Authorized Service Centers throughout the world. All Mul-T-Lock products comply with the toughest international standards - UL, ANSI, ASTM, CEN, VDS, SKG and many more. Mul-T-Lock has received many accreditations, including ISO 9001/2000, and ISO 14001, holding true to our commitment to customers and employees.

Attention to product quality and design, as well as outstanding commitment to customer service and support have made Mul-T-Lock one of the leading companies in the industry and one of the fastest growing high security manufacturers in the world.

The Benefits of Mul–T–Lock High Security

Patented Key Control

Protected by many international patents and strict, factory key control regulations, Mul-T-Lock's Key Control Systems are designed to hinder unauthorized key duplication. Duplication of Mul-T-Lock keys is only permissible at authorized service centers and on genuine Mul-T-Lock key cutting machines.

Pick, Drill and Bump Resistance

Mul-T-Lock products are designed to withstand various attempts at forced entry. Mul-T-Lock's unique telescopic pin tumbler mechanism will frustrate even the most experienced lock picker. Ten- and eight-pin cylinder designs enhance the level of security by requiring a dual shear line match in order for the cylinder to operate. Plus, each cylinder incorporates hardened steel inserts in strategic areas to offer a high level of drill resistance. In addition, advanced protective elements such as mushroom and split plug pins, interlocking telescopic pins and strict key control procedures virtually eliminate the threat of bumping.

One Key - Endless Possibilities

Mul-T-Lock manufactures thousands of locking products to offer the user a level of security which is second to none. At the same time, Mul-T-Lock products offer the convenience of a single key design for all of our products. Users will find ease in their capability to open everything from a padlock to a file cabinet cylinder to the deadbolt on their front door, all with a single key. Mul-T-Lock products can also be incorporated into user-specific keyed different, keyed alike, or master keyed systems that can allow for limited access for specific users, and complete access for others. And taking the concept to the next level still, Mul-T-Lock's Electronic Door Solutions (EDS) Platforms create even more opportunities for convenience and control. Users can rely on Mul-T-Lock solutions to create integrated systems with mechanical, electronic, electromechanical and access control elements exactly where each technology is needed, all while accessing the entire system with just a single key!

Ready for Any Challenge

Mul-T-Lock prides itself on the manufacturing of comprehensive, creative locking solutions, and unprecedented speed to market. Nearly every component of our product portfolio exists through a need from our customers. Balanced by helpful Sales, Customer Support, and determined R&D and Engineering Departments, Mul-T-Lock is here to satisfy any demand, as fast as we possibly can. No application is too small. No master key system is too large. With our unrelenting dedication to finding the perfect high security solution for all of our customers' needs, Mul-T-Lock is truly, ready for any challenge!

Mul–T–Lock Product Range

Mul-T-Lock is a global player in the realm of high security locks. Our vast product line extends to locks, padlocks, and cylinders - both foreign and domestic. High security locking solutions for American, Scandinavian, Japanese, and many European locksets, all of which can be incorporated into a single keying system, are just part of Mul-T-Lock's impressive product portfolio.

ACCESS CONTROL & SMART SOLUTIONS

In addition to our superior mechanical locking systems, Mul-T-Lock has developed an impressive line of Electronic Door Solutions. CLIQ® e-cylinders offer a wire-free method of bringing convenient key scheduling, refreshing, deactivation, event logs and more to virtually any opening. SynerKey® and SynerCLIQ® dual credentials combine key and fob functionality for ultimate convenience. SMARTair® access control offers fully integrated locking solutions for every application. Plus, keyless entry products and accessories such as the Code-it electronic code handle and Digital Door Viewer lend user-friendly innovation and efficiency.

CYLINDERS

Mortise, Rim, and Key in Knob Cylinders headline Mul-T-Lock's comprehensive line of retrofit solutions. Available for a wide range of Residential, Commercial, Industrial, and International locksets, each is designed to offer an affordable upgrade to pick, drill and bump resistance, as well as patented, restricted key control to almost any existing lockset. In addition, Mul-T-Lock carries Large Format Interchangeable Cores, Mogul Cylinders, and a variety of Profile Cylinders to fit multiple applications.

DOOR LOCKS

Mul-T-Lock's line of high security door locks has been spearheaded by the unique Hercular® Deadbolt. Utilizing superior strength and ease of installation, the Hercular® Deadbolt has set new standards in high security locking. Constructed of solid brass and hardened steel, the Hercular® deadbolt is recognized by many as the best deadbolt on the market today.

Mul-T-Lock's door lock family also includes Mortise Locks, Knob & Lever Cylindrical Locks, and Jimmy-Proof Locks, all of which include Mul-T-Lock's patented cylinder and are designed to offer a complete high security package.

UTILITY & FURNITURE LOCKS

Mul-T-Lock offers a multitude of products for those small spaces and specialty areas that require the same level of protection as a front or back door. File cabinets, desk drawers, and storage cabinets may sometimes contain sensitive items, such as classified documents, confidential materials, cash, and pharmaceutical items. So Mul-T-Lock's Cam Locks, Drawer Locks, and Cabinet Locks have been designed to incorporate the core principles of patented key control and the pick, drill and bump resistance inherent in all Mul-T-Lock products.

PADLOCKS

Mul-T-Lock's various padlock lines are world renowned, and recognized by many institutions. Whether it's the new design of the new G Series Line (NG), the familiarity of out T-Series Line, the versatility of the C-Series Line, or the brute strength of our new robust E-series Line, Mul-T-Lock carries the best solution for almost any padlock application. Also available are many accessories and specialty designs, which provide comprehensive options for special applications.

MULTIPOINT LOCKS

Mul-T-Lock offers a wide variety of multipoint locks for various applications, including some that mortise into the core of wood or metal doors, as well as several external, surface-mounted models. The extensive full range of these multipoint locks can be found in our full global catalog and ordered through special order request.

How To Order

We aim to make ordering as simple and convenient as possible for you. Take advantage of priority processing when you place your orders via email – send orders and/or pricing requests to your territory manager or to orders@mul-t-lockusa.com. For your convenience, fillable versions of our ordering form (located in the back of this book) may be obtained by contacting your territory manager or our customer service department. While this form may be useful in helping to keep your request organized, it is not required. You may submit your orders with or without an order form; simply be sure to include the following information:

- Your company name and the point of contact's first and last name
- Your customer number (you can find this by referring to your monthly statement or contacting our office)
- The complete billing address and shipping address for each order
- All part numbers, keyways, finishes, keying variations and quantities of the items you wish to order
- Your preferred shipping method (ground, overnight, etc.)
- Whether or not you prefer expedited shipping and if so, your required date of delivery
- A telephone number at which you can be reached
- If paying by credit card: the name on the card, card number, expiration date, name on the card and CVV security code (located on the back of the card) **Credit Card fees will apply.**

While email order submission is preferred and earns your order priority processing for faster delivery, you may also place your orders by contacting your territory manager directly, calling our customer service department at 1-800-MULTLOCK Monday through Friday 9:00 a.m. – 5:30 p.m. (Eastern Time) or by faxing to 973-778-4007.

Please keep in mind that we will always do our best to expedite your order in a timely and professional manner. However, due to extensive demand, it is not always possible for us to ship orders within a single day. You may request Expedited Shipping for an additional cost. When placing your order, simply request "Expedited Shipping" and tell us the in-hand date you need your items by. We will then advise if Expedited Shipping services are available to meet your needs. Please note that additional Expedited Shipping fees will apply. Although we cannot guarantee that any order will ship on the same day, we can assure you that we will try to accommodate each and every request to the best of our ability. Please note that all ETAs will depend upon order lineup and stock availability.

- Understanding the Part #s:

Mul-T-Lock has made it very easy for all of our customers to use logical part #s when placing orders. The following is an example of one of our part #s:

KW	-	MOR_C0_	-	XX	-	_
Keyway (Example)		**Product** (Example)		**Finish** (Example)		**Keying** (Example)
206XP		MOR0C01		05 (Bright Brass)		S (Sub-Assembled)
206SP		MOR1C02		26 (Satin Chrome)		D (Keyed Different)

Should you have any questions or require any assistance when placing orders, one of our representatives will be happy to assist you.

Mul–T–Lock Keying Options

Dedicated to satisfying customers' needs, Mul-T-Lock offers many convenient keying options. These options range from traditional to innovative and are designed to offer convenience, control and peace of mind.

» KEYED DIFFERENT (D)

Each product is operated by only its own key. KD products are supplied with 2 nylon head keys & 1 key order card per product.

» KEYED ALIKE (A)

Multiple products in a system can be keyed to the same locking combination, allowing just one key to open all of them. KA products are supplied with 2 nylon head keys per product & 1 key order card per combination.

» MASTER KEYED (M)

Keys can be issued to open just one, many or all doors, depending upon the key holder's authorization level. MK products are supplied with 2 nylon head keys per product & 1 master key system card per system (card sent with initial order only—only 1 card per system is issued). When ordering new master key systems, customers must approve layout prior to order processing. When ordering additional products for an existing system, customers must specify the master key system number, part # of products needed, quantity of product(s), keying code for each product and the quantity of keys required per code. Additional labor charges will apply.

» 3 IN 1 KEYING (3IN1)

Lost keys or any circumstances that might require a user to immediately change a lock combination are easily resolved by 3in1 keying. Each 3in1 product is supplied with 4 nylon head keys (2 green, 1 yellow & 1 red) and one key order card per combination. Initially operated by the green key, if a change is needed, users can simply insert the yellow key and turn it in the lock. This process alone changes the lock combination so that it may no longer be opened by the green key and can be operated by the yellow key only. If the need to change the combination arises again, this process is simply repeated with the red key, nullifying the operating capabilities of the yellow key now and allowing operation only by the red key. Additional labor charges will apply.

» FLEX CONTROL KEYING (F)

A mechanical key can be temporarily authorized or unauthorized by simply turning one of two user keys in the lock: one key means go, the other says no! FleX Control keyed products are supplied with 5 key keys (2 white, 1 green, 1 red, and 1 blue) and 1 card per combination. The green (go) key and the red (no) key are for the system owner; these keys are used to allow or lock out a guest key. The white (neutral) keys are for those who should always have access but should not impact the functionality of the guest key, while the blue (guest) key can be distributed to visitors. The system owner then simply turns the green key in the lock to allow the blue key to open the same door or turns the red key in the lock to lock out the blue key. Owners can lock out and reauthorize the blue key, as often as necessary without having to change the lock combination and without affecting the authorization of the white key, which will always work regardless of the blue key's status. Great for applications which may require the ability to grant and revoke access for employees, consultants, office temps, babysitters, housekeepers, renovation workers and more on a continued basis. Additional labor charges will apply. Currently only available for Interactive+.

» CHANGEABLE CONSTRUCTION KEYING (C)

Temporarily preps multiple cylinders on construction job sites for operation by a single key. While under construction, one master operates all of the cylinders. Then, when a tenant moves in, a special change-over key is inserted, which alters key access, disallowing the construction master to ever work again and prepping the cylinder for operation by the user key only. Construction keyed products are supplied with 2 nylon head keys per product & 1 key order card per product plus 1 master key &1 changeover key per site. Additional labor charges will apply.

» ONE-WAY CYLINDER KEYING (O)

Allows for the issuance of one key that can ONLY lock, one key that can ONLY unlock and one key that can BOTH lock and unlock the cylinder. Perfect for applications where one key holder should only have authorization to lock, while another should only have authorization to open and yet another can have the authorization to perform both functions. One way keyed products are supplied with 2 nylon head cut keys per product and 1 key order card per product. Additional labor charges will apply.

MT5®+ PLATFORM

Mul-T-Lock's fifth patented state-of-the-art High Security platform, the MT5® offers exceptional 21st-century security. In the USA, Mul-T-Lock offers the most advanced version of this innovative platform, the MT5®+. The unique capacities of the MT5®+ are based upon three decades of experience and include several breakthrough features.

MT5®+ is a top-tier, triple locking mechanism high security platform. It provides enhanced key control by utilizing patented keys and requiring presentation of a magnetic strip key order card for key duplication by a unique card swipe key cutting machine. MT5®+ also offers enhanced resistance to picking, drilling, bumping and other forms of lock manipulation. The MT5®+ platform is available with CLIQ® electromechanical technology.

Choose this solution for applications that require advanced physical security and protection against unauthorized key duplication.

FEATURES

- A UL 437 listing and resistance against tampering techniques such as picking, drilling and bumping
- A new configuration of Mul-T-Lock's unique telescopic pin technology
- A patented mobile element, the Alpha Spring, at the tip of the key which engages a unique pin at the rear of the locking mechanism to create an additional shear line
- An additional locking bar mechanism
- A huge number of possible locking combinations, made possible by utilizing the MT5+'s three different locking mechanisms
- Unique high security magnetic strip key order cards which must be swiped through a dedicated KC5® key cutting machine for key duplication
- Extensive product range – can be incorporated into many Mul-T-Lock products
- Exclusive keyway options
- Compliance with the most stringent international standards
- Vastly extensive master keying capabilities to support very large and complex system needs, which may even incorporate hierarchy and matrix design requirements within the same suite
- National Keyway is 616B
- Sub assembled products for dealer, not institutional, keyways is 853B keyway
- Dealer Keyways always begin with 6__B (i.e. 675B)

INTERACTIVE®+ PLATFORM

Mul-T-Lock's Interactive®+ platform builds on the foundation and innovation of the Interactive® system, adding new features for enhanced effectiveness. This latest technology combines trusted reliability and all new elements for continued security.

Interactive®+ is a reliable, double locking mechanism high security platform. It provides enhanced key control by utilizing patented keys and requiring presentation of a key order card to an authorized dealer for key duplication by a unique locksmith-operated key cutting machine. Interactive®+ also offers enhanced resistance to picking, drilling, bumping and other forms of lock manipulation. The Interactive®+ platform is also available with CLIQ® electromechanical technology.

Choose this solution for applications that require physical security and protection against unauthorized key duplication.

FEATURES

- A UL 437 listing and resistance against tampering techniques such as picking, drilling and bumping
- A telescopic pin tumbler mechanism that requires the simultaneous alignment of both internal and external shear lines for plug rotation
- A patented mobile element, the Interactive® disk, within the key to create an additional shear line
- Key control key ordering authorization cards which must be presented to an authorized Mul-T-Lock dealer for key duplication
- Complete product range – can be incorporated into nearly all Mul-T-Lock products
- Backwards compatible with older Interactive® systems (Interactive®+ keys can be used in both newer Interactive®+ and older Interactive® cylinders, while Interactive® keys will only operate original Interactive® cylinders)
- Restricted keyway options
- Extensive master keying capabilities to suit the needs of multiple applications and system needs
- National Keyway is 206SP
- Sub assembled products are X keyway. Example: (206XP; 236XP, etc...)
- Service keyed products will always be S version of any key-way

INTEGRATOR® PLATFORM

Mul-T-Lock's Integrator® platform is one of the many Mul-T-Lock patented options utilizing patent-protection and key control to offer greater security against unauthorized key duplication. Integrator® offers a cost-effective and more exclusive alternative to other more common restricted key systems.

Integrator® is a patented key, standard security platform. It provides enhanced key control by utilizing patented keys and requiring presentation of a key order card to an authorized dealer for key duplication by a unique locksmith-operated key cutting machine but does not offer physical high security. The Integrator® platform can be used in a combined system with non-patented 7x7® platform products in order to create a two-tier security system which utilizes patented cylinders and keys in some areas and non-patented components in others, all operable by Integrator® keys.

Choose this solution for applications that require protection against unauthorized key duplication in all or some areas and do not require strong physical high security.

FEATURES

- A unique, high precision seven-pin tumbler mechanism
- A patented key with a copy-protected oval cut, available in three different configurations: Internal, External and Twin, activated by a unique launcher pin within the cylinder
- Key control key ordering authorization cards which must be presented to an authorized Mul-T-Lock dealer for key duplication
- Common product range – can be incorporated into common Mul-T-Lock products
- Some keyway options
- Master keying capabilities to suit the needs of multiple applications and system needs

TRAKA® KEY & ASSET MANAGEMENT SYSTEMS

Mul-T-Lock offers Traka asset management solutions to easily transform keys and cards into clever credentials. Traka's smart solutions help to better protect important assets by providing intelligent key and equipment management access control. Traka's simple yet sophisticated cabinets, lockers and drawers create accountability, improved efficiency, reduced downtime, less damage, fewer losses, lower operating costs and significantly less administration.

Traka systems work by using a using a robust security seal to attach keys or cards to an RFID iFob which locks the credentials into a designated receptor within a Traka cabinet, locker, or specialized unit. Users request access to the unit by entering a PIN code, using a magnetic ID or proximity credential, or via biometric fingerprint. If the request is valid, the door to the unit opens, giving the user permission to remove certain iFobs from assigned positions, view which credentials are out and who has taken them, and to return their credentials to their appropriate position. Choose from a wide range of Traka solutions, including the convenient plug and play Traka 21 standalone smart key cabinet to secure access to buildings, facilities, equipment, vehicles and more.

FEATURES

- Stand-alone, plug & play or web-access models available
- Utilizes advanced RFID technology
- Touchscreen interface
- PIN access to designated and individually locked into place keys or keysets
- Card reader and biometric access options also offered
- Keys are securely attached using special security seals
- Simple to configure and update
- Cabinets include concealed robust fixing points for secure wall mounting
- Mains operated with optional battery backup

SPECIFICATIONS

- User, key and access rights administration
- Screen-based audit trail and reporting capability or export via USB port
- Robust, long-life iFobs with security seals
- Locking receptors with LEDs
- Robust, compact steel housing eliminates exposed hinges and access points
- Manual override and door release functions in case of emergency
- Audible alarms

MUL-T-LOCK CLIQ® / ECLIQ® PLATFORM

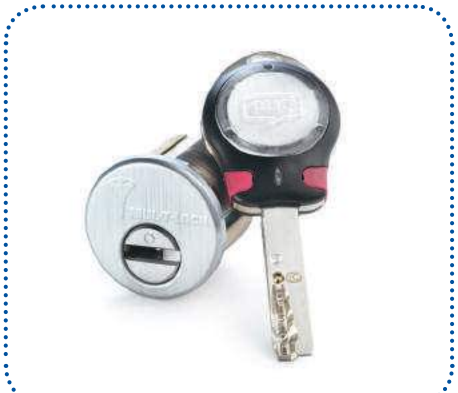
CLIQ® offers a complete range of wire-free e-cylinders, deadbolts, locksets, padlocks and utility locks, all of which install exactly as a mechanical device does—no wiring or hardware modifications required. CLIQ combines electronic and mechanical locking and brings access control features such as key scheduling, audit trail and more to virtually any opening.

eCLIQ offers a cost-effective and easy way to assign new access rights, no matter how many times your needs change. Locking cylinders can be individually programmed with time-limited access, using the programmer and the red programming key, so temporary rights for contractors and external service providers can be assigned quickly and easily. Lost keys no longer pose a security risk, as keys can be revoked electronically at any time.

User-friendly web-based software allows system managers to initiate changes and view audit trails from any authorized computer. Key holders can easily update and/or revalidate their credentials by inserting them into either a wall-mounted or mobile programming/refreshing device.

FEATURES

- Offline system, no wiring
- Easy to install
- Cost-effective
- Compatible with a variety of lock types
- Audit trail report, up to 1000 last events
- Time-based authorization
- Electronic key cancellation, addition and replacement
- In-key battery
- Dust/water resistance
- User-friendly web-based software
- Ability to view audit trails and update keys from any authorized computer
- Multiple programming devices for stationary and mobile key updating



SPECIFICATIONS

- 3DES encryption technology
- Key battery: CR2032 3V lithium battery
- Battery life: 2 years / 20,000 cycles
- Temperature range: -30oC to 70oC / -22oF to 158oF
- Cylinder installation time: approx. 5 minutes
- Cylinder length: 31x31 mm and up
- Warranty: 2 years
- IP58 rating for dust & water resistance
- Programming is performed via software and a programming device
- Software requirements: OS Windows 2000, Windows XP, Server 2000 or Windows Vista

CLIQ® ECLIQ® PROGRAMMING OPTIONS

CLIQ® lends convenience to system administrators and users by utilizing online software which can be accessed from any authorized computer and multiple models of key updaters, which allow key holders to instantly update their keys according to the administrator's changes as often as needed, regardless of their location and without having to present their keys to the system manager.

This accommodating solution fits any application that requires wire-free access control features, including: key scheduling, audit trail, instant key activation, rescheduling and/or disabling from afar and more. CLIQ® is ideal for consumers with multiple locations such as national or regional retail chains, companies with satellite office locations, multi-campus schools and more, as well as industrial and remote applications that cannot be wired and require programming from a different location.

HOW CLIQ® PROGRAMMING WORKS

- CLIQ® Manager software offers a secure online application, accessible from any computer.
- One or more users may be assigned as system managers at administrator's discretion, each one equipped with a standard programming device.
- A system manager simply hooks a PD up to any computer and connects to a CLIQ Manager Software site (username and password protected).
- A system manager inserts a C-key into PD and makes authorization changes as needed to user keys such as time schedule updates, specific cylinder access addition or revocation, 24-hour access permission, etc. These changes will then be transmitted to the key holder in one of two ways:
    - The relevant site includes a Wall PD (updater). This wall-hung device is equipped with a power over Ethernet USB port which receives updates from the system manager via internet or intranet connection and a portal for user key insertion. The key holder simply inserts their key into the wall updater and their key authorizations will be instantly updated.
    - One or more key holders receive a Mobile PD (updater). This handheld device is equipped with a USB port for connection to a computer or Bluetooth connection through a cell phone. Key holders using this device will plug into their computer or cell phone and visit a website (separate from the website that hosts the CLIQ® Manager software), which will have been updated with the system manager's changes. The key holder simply inserts their key into the connected mobile updater, and their key authorizations will be instantly updated.

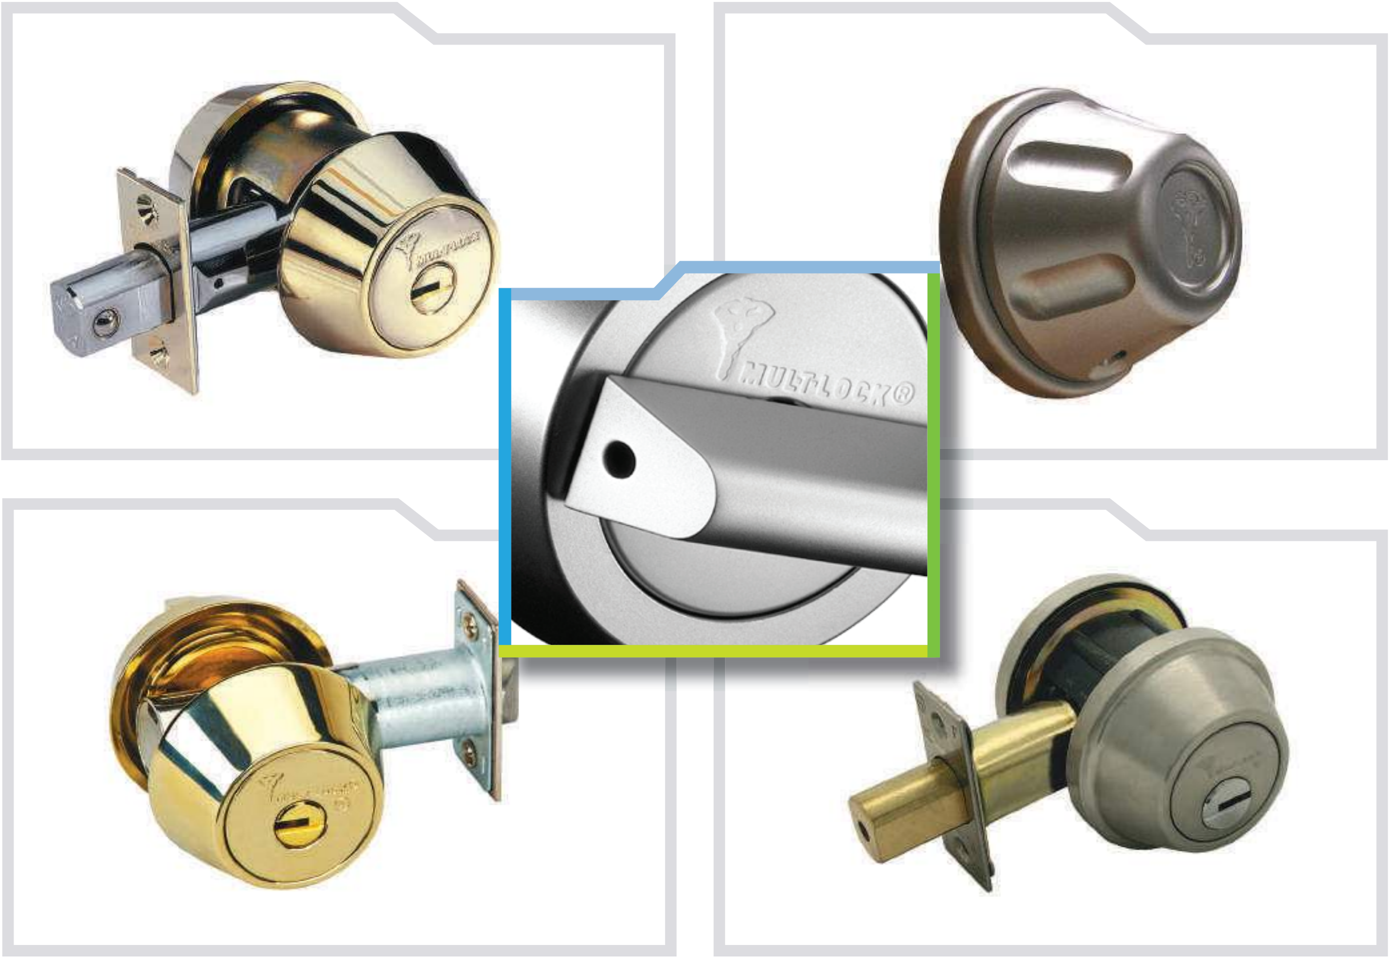
MUL-T-LOCK DEADBOLTS



Mul-T-Lock's deadbolt offering includes Grade 1 and Grade 2 solutions to provide the right levels of security for the right applications. Grade 1 options include: the premier Hercular® deadbolt in both standard and decorative variations; the Anti-Ligature deadbolt with non-angular design and institutional safety-type locking function, which only allows locking from the outside; and the Grade 1 Latch Lock for areas where self-latching is required. Mul-T-Lock also offers the Grade 2 Cronus® deadbolt, a cost-effective high security solution.

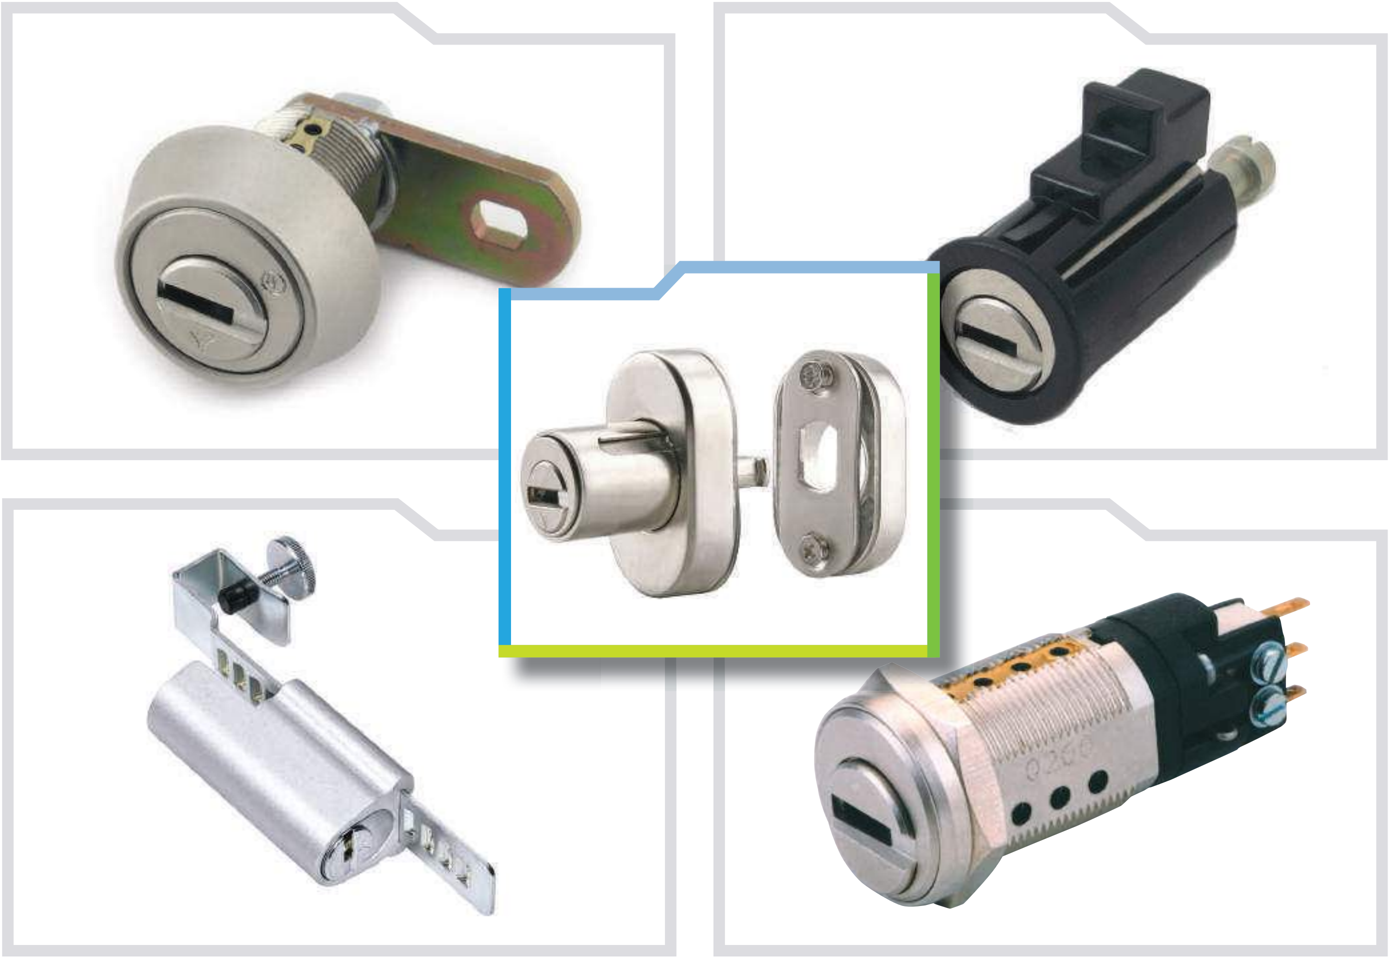
MUL-T-LOCK
UTILITY, FURNITURE AND RETAIL LOCKS



Mul-T-Lock's utility and furniture locking solutions bring high security to many sensitive areas that can be difficult to secure. Cam, switch, showcase, plunger, push locks and more allow for the addition of high security to file cabinets, mailboxes, credenzas, retail cases, and many other specialty locations. These items can easily be added to a system that includes deadbolts, knobs, levers, mortise locks and other standard door hardware, allowing users to access many different types of locks with just a single key.

MUL-T-LOCK MASTER KEYING

Mul-T-Lock offers a quick and reliable solution to your master keying needs.
Below is a list of terms and procedures to be used when requesting a Master Key System.

TERMS

GM - GRAND MASTER
M... - SUB-MASTER OR CHANGE KEYS

Change or individual keys determine the sub-group or complete system level number.

For Instance:

A 2-Level System with 10 Change Keys
Example:
GM
M1 thru M10
A 3-Level System with 2 Subs and 5 Changes Under Each
Example:
GM

M1	M2
M1.1 thru M1.5	M2.1 thru M2.5

PROCEDURES

A Hierarchical (or tree) system is the most common Master Key System design.
To request a standard tree Master key system, please contact your local Territory Manager or our Master Key Department for assistance.
A Matrix System is utilized when cross-keying needs to occur.
The Matrix chart will help you and your customer in the design of a Matrix system.
Begin by labeling the doors in one column and key holders in the other, then check the corresponding boxes to show authorizations.
Once this chart is filled out, fax it to Mul-T-Lock ATTN: Master Key Department, and one of our technicians will work on the solution for you.

MUL-T-LOCK KEY & CYLINDER MAINTENANCE

In order retain warranty eligibility, please review, implement and communicate to all users the proper maintenance procedures below to ensure continued proper function of Mul-T-Lock's high security keys and cylinders.

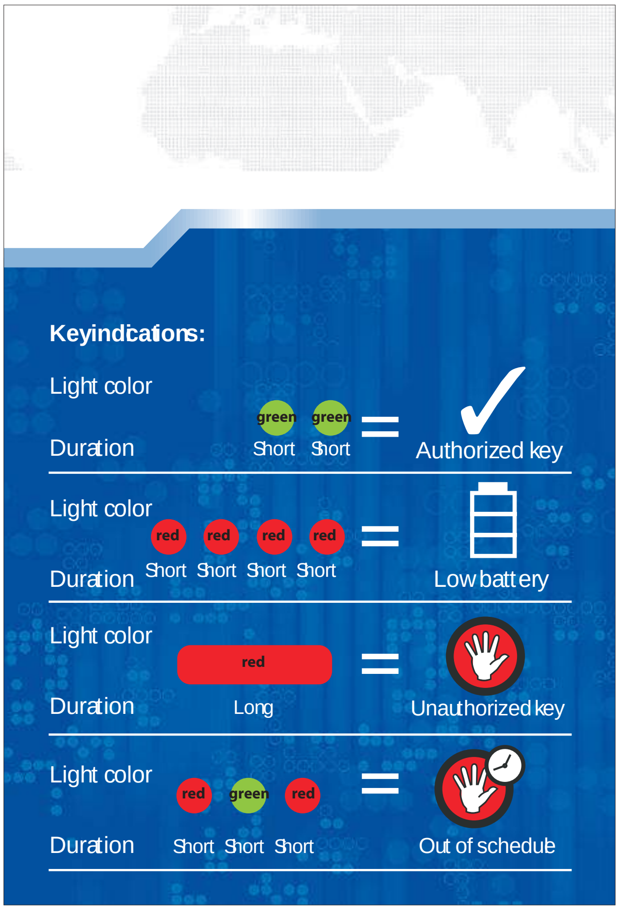
MUL-T-LOCK KEYS (Pertains to all Mul-T-Lock keys)

- Mul-T-Lock keys must be kept clean and must retain a straight blade – do not use keys for anything other then their intended duty – to lock/unlock your lock cylinders (keys may not be used as a tool such as a knife, screwdriver, etc.)
- Additional Mul-T-Lock keys may be obtained only from authorized Mul-T-Lock dealers. Only genuine Mul-T-lock keys may be used to operate Mul-T-Lock lock cylinders.
- Remember that the cuts of your keys contain personal information about your lock cylinder combination and must be treated like any other confidential information you have.

MUL-T-LOCK CLIQ® SMART KEYS (Additional care instructions for CLIQ® keys)

CLIQ® keys must be kept dry and be free of moisture, dirt and debris before insertion into a CLIQ® cylinder. Should CLIQ® keys come into contact with any liquid, allow keys to dry completely before attempting to insert it into a CLIQ® e-cylinder.

See below for further information on key indications:



Key indications:

MUL-T-LOCK KEY & CYLINDER MAINTENANCE

In order retain warranty eligibility, please review, implement and communicate to all users the proper maintenance procedures below to ensure continued proper function of Mul-T-Lock's high security keys and cylinders.

MUL-T-LOCK MECHANICAL CYLINDERS

- Mul-T-Lock cylinders must be put into correctly installed and freely operating locks. A misaligned door or poorly installed lock will cause an unnecessary load and friction that can damage cylinders.
- Never paint any external or internal part of a cylinder, and do not hose or chemical wash.
- MECHANICAL Mul-T-Lock Cylinders must be frequently lubricated with Mul-T-Lock liquid lubricant. The frequency of lubrication required will depend upon weather, environment, cylinder usage and location. All cylinders must be lubricated at least twice per year. However, cylinders in particular conditions (such as those used on external doors) must be lubricated at least four times per year and whenever users experience difficulty in turning or inserting keys. Use only Mul-T-Lock special lubricant. Please note that separate rules for lubrication apply to Mul-T-Lock's CLIQ® e-cylinders (see below).

MUL-T-LOCK CLIQ® E-CYLINDERS

It is important to note that two separate lubricants may be required for CLIQ e-cylinders (one for those produced prior to 2010—cylinder plugs will show no markings and one for the newest version of CLIQ® e-cylinders—cylinder plugs will be stamped with a circle or an "O" symbol and serial numbers for these new cylinders will begin with "04_ _ _").

1. **Older** cylinders with no plug markings must be lubricated using a powder three-bond-1810C lubri- cant
(Use Part Number QLST-LUBE)
2. **Newer** cylinders, which contain plugs showing an "O" symbol and are identified by serial numbers beginning with "04_ _ _ "(e.g. 0407W and above) must be lubricated using a special C9 electromechanical liquid lubricant; not the same liquid lubricant used in mechanical cylinders (Use Part Number QLST-LUBE-C9)

MUL-T-LOCK KEYS & CYLINDERS IN A MASTER KEY SYSTEM

When Mul-T-Lock keys and cylinders are part of a master key system, extra care is needed.

All Mul-T-Lock keys related to a master key system must carry a designation marking, and may only be used in the cylinder for which it is intended. If a Mul-T-Lock key fails to operate the cylinder(s) it is intended to open, the first action should be verification of key designation to ensure that the appropriate key has in fact been used. When in doubt, contact your authorized Mul-T-Lock dealer.

- Mul-T-Lock keys related to a master key system must be carefully distributed to the appropriate key holders. Accurate and up-to-date records of key distribution should be maintained at all times to ensure that master key system owners know exactly how many of each key for their system is in circulation and who is in possession of each one.
- Cylinders must be frequently lubricated (See Mul-T-Lock Cylinders section above).
- Additional Mul-T-Lock master key system keys may be obtained only from the original authorized Mul-T-Lock dealer that originally installed the master key system. If a change in the authorized Mul-T-Lock dealer selected to maintain your master key system is needed, contact Mul-T-Lock USA, Inc. for proper procedure instructions.

Failure to follow these procedures will void any warranty.

Limited Warranty

Mul T Lock hereby warrants, to the end user **("Purchaser")** who purchases a genuine Mul T Lock® product **("Product")**, from an authorized Mul-T-Lock dealer and/or licensed locksmith **(collectively referred to here as "Dealer")** that the Product will be free from mechanical and/or electronic production defects in materials and workmanship **("Defects")**, for a period of two years from the date the Product was shipped from Mul-T-Lock, subject to the terms and conditions indicated below.

Improper Activity shall render this limited warranty void. "Improper Activity" includes any and all of the following: installation by anyone other than an authorized Mul-T-Lock dealer and/or a licensed locksmith; improper installation; use/operation/maintenance other than in accordance with MulTLock's instructions, tampering by Purchaser; neglect; damage by the application of force; acts of vandalism; accidents; misuse; abuse; repair or alteration by anyone other than a Dealer; and use of keys, key blanks, key cutting machines, cylinders, locks, accessories, lubricants and/or other components that are not the suitable and genuine MulTLock products.

Some basic instructions for correct use of the Product are shown overleaf. Failure to adhere to these instructions shall render this limited warranty void.

MulTLock's sole obligation under this limited warranty is to repair or replace, at MulTLock's sole discretion, any Product found by Mul-T-Lock to have a Defect. This limited warranty does not grant any other rights or give rise to any other obligation, or absolve Purchaser of the responsibility to employ any other suitable measures, by whatever means, including insurance, against the risk of personal injury or damage to property. This limited warranty relates to Product's Defects only. Mul-T-Lock shall not be liable, in any event, for any labor costs associated with the Product and its installation process.

In order to facilitate the warranty service and enable MulTLock to determine entitlement under this warranty, Purchaser must first return the Product, with proof of purchase from a Dealer, and one or more original keys, to MulTLock, through the Dealer from whom Purchaser purchased the Product. All shipping, handling, travel, service call and/or other incidental and/or related charges are fully payable by Purchaser only and are not included in this limited warranty.

THE USE OF OTHER THAN SUITABLE, GENUINE MUL-T-LOCK® COMPONENTS MAY CAUSE SEVERE DAMAGE TO THE PRODUCT, AND WILL VOID THIS LIMITED WARRANTY. THIS LIMITED WARRANTY MAY NOT BE ASSIGNED OR OTHERWISE TRANSFERRED IN ANY WAY AND MAY NOT BE EXTENDED, ALTERED OR VARIED.

TO THE FULLEST EXTENT ALLOWABLE BY THE LAWS APPLYING HERETO, THIS LIMITED WARRANTY IS IN LIEU OF ANY OTHER WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ALL OF WHICH ARE EXPRESSLY EXCLUDED AND DISCLAIMED. MUL-T-LOCK WILL NOT BE LIABLE FOR LOSS OF PROFITS, ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHICH PURCHASER MAY SUSTAIN, ANY DAMAGES FOR CLAIMS BY ANY THIRD PARTY OR PUNITIVE DAMAGES EVEN IN THE EVENT OF NOTICE OF THE POSSIBILITY OF SUCH DAMAGES.

MUL-T-LOCK® YOUR KEY TO HIGH SECURITY

Basic Instructions and Requirements for Correct Use of Mul-T-Lock® Products

Keys:
Keys must be used only for their intended purpose of operating their corresponding cylinder in normal use.
Keys must be kept clean and must retain a straight blade.
Genuine Mul-T-Lock key blanks must be used.
Keys must be inspected periodically and must be replaced when they show physical wear.

Cylinders:
Installation must be performed by an authorized MulTLock dealer and/or a licensed locksmith only.
A Cylinder is a mechanical device which requires regular preventive maintenance.
Cylinders must not be submerged in water, or exposed to any chemical wash, or be painted.
Protect the cylinder from dirt and dust.
Protect your cylinder from exposure to extreme temperatures (-20C to +80C)
CLIQ® cylinders utilized on any exterior door and/or any other outdoor application must be purchased with rain guard options (sold separately). Failure to specify the nature of the product's application and the need for rain guard option at the time of product purchase shall void the warranty.
The cylinder's keyway must be lubricated with Mul-T-Lock approved lubricant at least twice a year as normal maintenance. In heavy use environments and extreme weather conditions, lubrication must be performed every three months. Increased usage and exposure generally necessitate more frequent lubrication.

Conditions of Sale
All sales made or negotiated with Mul-T-Lock USA, Inc. ("Mul-T-Lock") shall be subject to the Terms and Conditions set forth herein, which may be added to, modified or otherwise altered only in writing, signed by the President of Mul-T-Lock. Failure of Mul-T-Lock to object to any provisions that may be contained in any order or other form of Purchaser shall not be constructed as a waiver of these Terms and Conditions or an acceptance of any such provision.

Shipping & Delivery
Unless otherwise agreed to in writing, all Products will be shipped F.O.B. Mul-T-Lock USA, Inc.'s location. Shipping dates provided by Mul-T-Lock are estimates only. Mul-T-Lock reserves the right to make delivery in installments. Purchaser shall assume all risk of loss or damage upon delivery to carrier at the point of shipment, even if other delivery terms are agreed upon.

Choice of Carrier
Mul-T-Lock will ship by carrier and route of its choice to any freight point within the United States. If Purchaser requests on their order that a different carrier or route is required, Mul-T-Lock will try to accommodate. If so, Purchaser will pay the entire amount of all shipping charges.

Shipping Charges; taxes
Shipping and handling are additional and will be shown on the invoice(s) or other documentation. Purchaser will pay for all shipment charges for shipments under $1200.00 net USD. Mul-T-Lock will pay all shipment charges in advance only for shipments exceeding $1200.00 net USD and through Mul-T-Lock's choice of carrier, route, and method. The Purchaser is responsible for sales and all other taxes associated with its purchase.

Orders
Mul-T-Lock reserves the right to refuse any Order. Mul-T-Lock may do so through notice in writing of such to Purchaser within fifteen (15) days of Mul-T-Lock receiving the Order.

Special Orders
Mul-T-Lock reserves the right to define and/or redefine any product as a "special order" item (including both those that are listed in this book and those that are not). If an item is deemed by Mul-T-Lock as a special order item, additional charges and minimum order amount requirements will apply.

Changes & Cancellations
Changes can result in delay in the scheduled delivery date. Additions to orders will be entered separately. Special Order items and any Orders that are within thirty (30) days of original receipt of order are not subject to cancellation.

Pricing
The price for the Products shall be Mul-T-Lock's prevailing price at the time the order was accepted by Mul-T-Lock. Mul-T-Lock's price lists are for general information only, and do not constitute a binding open offer by Mul-T-Lock for the sale of Products. Mul-T-Lock reserves the right to make modifications, or changes at any time without prior notice. All Products listed, which incorporate, or include a Mul-T-Lock mechanical cylinder are priced as Keyed Different within their respective platforms, with 2 Nylon Head Cut Keys*, and 1 Key Order Card. *Certain keyways are supplied only with Metal Head Keys. Additional charges for Metal Head key conversions will apply to any keyed products purchased in these particular keyways. E-cylinders are provided without keys (keys may be purchased separately). Dealer discount for all electronic and electromechanical products and keys will vary from dealers' normal discount structure (contact Mul-T-Lock for pricing on these items).

Payment
Unless otherwise agreed in writing, payment should be made in accordance to the payment terms stated on the invoice. If payments are not made when due, buyer will pay, in addition to the overdue payment, a late charge equal to the lesser of 1.5% per month or the highest applicable rate allowed by law on such overdue amounts. Overdue accounts will be assigned to the credit department for all transactions. Once an account has been assigned to the credit department, no order may be taken, entered or shipped without approval from the credit manager.

Possession of Title
The goods shall remain in Mul-T-Lock's legal and equitable ownership until such times as the Purchaser pays to Mul-T-Lock the invoiced price together with the full price of any goods which are subject of any other order placed with Mul-T-Lock and until such payment, Purchaser shall be in possession of the goods in fiduciary capacity as bailee for Mul-T-Lock.

Returns
Mul-T-Lock USA, Inc., normally, will not accept goods for re-stocking unless due to incorrect shipping, Product defects and/or Product warranties. All other returns must be with prior approval of local Territory Manager and the management of Mul-T-Lock USA, Inc. All requests for returns must be submitted, and coordinated with Mul-T-Lock USA, Inc. Purchaser Service Department.

Return Procedure
1. Purchaser must have available, the invoice number, part number, quantity, and state the reason for return, prior to OCR (Order Confirmation-Return) processing.
2. OCR (Order Confirmation-Return) will be issued for pre-approved returns.
3. Mul-T-Lock USA, Inc. will issue a UPS Call Tag only for incorrect shipments, and defective Products.
4. OCR # must appear on the outside of package which is being returned.
5. Copy of OCR, which is provided by Mul-T-Lock USA, Inc., must be placed inside package.
6. Any return which is given to a Mul-T-Lock Representative must be accompanied by copy of the "OCR" which will be provided by Mul-T-Lock USA, Inc. A Mul-T-Lock Representative and an authorized representative of the Purchaser must sign on "OCR" before being returned to Mul-T-Lock.
7. Any return sent without prior authorization will be refused, and sent back to the Purchaser, at the Purchaser's expense.
8. Unauthorized returns will not be accepted. Any unauthorized Products sent to Mul-T-Lock USA, Inc. will be placed in a holding area, and will require the sender to arrange pick-up. If pick-up does not occur within sixty (60) days, merchandise will be destroyed, and no credit will be issued.
9. Upon receipt of return, Products will be inspected, and Purchaser will be informed on course of action.
10. All Product defects and Product warranties will be repaired, or replaced with comparable Product only.
11. If Product defect is found to be due to abuse, misuse or lack of proper maintenance by the Purchaser, Mul-T-Lock will inform the Purchaser on the details of the inspection. Purchaser will be quoted on the costs for repair prior to Mul-T-Lock carrying out any action. If repair request is refused, then Product will be returned to the Purchaser together with an invoice for carriage, and engineer inspection.
12. Mul-T-Lock USA's policy is to issue credit, not money for authorized returned merchandise.
13. There will be a 35% handling/restocking fee on all merchandise returned or refused for reasons other than incorrect shipping, Product defects, and Product warranties.
14. Non-Refundable items include but are not limited to: CLIQ® Cylinders, CLIQ® Keys, and CLIQ® Software, Products which are Keyed Alike, and/or Master Keyed, Key Blanks which are personalized, stamped, or coined, Key Order Cards which are personalized, stamped, or embossed, Product which are not in their original packaging and in saleable condition, All other Products which have been modified, and All special order Products.
15. OCR # is valid for 30 days.

Default of Infringement
In the event that anytime Purchaser is in default of payment or infringing any of these terms, Mul-T-Lock reserves the right to withhold delivery, cancel or terminate any order, and hold Purchaser liable for any damage or expenses incurred by Mul-T-Lock. In addition to the above Mul-T-Lock reserves the right to repossess any goods to which it has retained title as aforesaid and thereafter to sell the same without prejudice to any Mul-T-Lock rights hereunder or otherwise. It is specifically agreed that any proceeds received by Purchaser for sale of goods to a third party shall be held by Purchaser in trust for Mul-T-Lock, until final settlement to Mul-T-Lock.

Trademarks
The Mul-T-Lock name and Muscleman Logo, and any other name, mark, or logo used by Mul-T-Lock and marked by an ® or ™ sign are registered / pending trademarks of Mul-T-Lock Ltd. In various countries. Mul-T-Lock reserves the right to make any product improvements or modifications without prior notice.

Claims
All discrepancies (shortages, incorrect shipments, etc.) must be claimed within ten (10) days after receipt of material. All other requests for returns must be submitted within sixty (60) days of invoice date. Price differences must be submitted for verification within thirty (30) days of original invoice.

Colors and Finishes
We have made every effort to display as accurately as possible the colors and finishes of our products that appear on this price book. However, we cannot guarantee that your actual product's finish will be exactly as it appears in this price book.

General
Mul-T-Lock will not be liable for performance delays or for non-performance, due to causes beyond its reasonable control. Disputes arising in connection with these Mul-T-Lock Terms and Conditions of Sale and Service will be governed by the laws of the state of New Jersey, USA.
