Multi-Tenant Entry Security

GT Series

Multi-Tenant Entry Security

Up to **16 Entrances** and **500 Tenants** per building

- Identify Visitors
- Unlock Doors
- ADA Compliant Design
- Variety of Stations
- Easy to Use

GT Series Solutions

Apartments & Condominiums
Easy to use entry panels and tenant stations for all types of multi-tenant buildings, even those with doormen.

Office Buildings
The GT Series compliments virtual receptionist systems by allowing tenants to view visitors and authorize entry.

High Rise Complexes
Larger buildings have multiple entrance points such as garages and service entrances. The GT Series can accommodate up to 16 different building entrances.

Dormitories & Campus Housing
With custom access codes, card reader integration, and security screening, the GT Series provides additional safety features and conveniences for today's students.

Mixed-Use Buildings
Entry stations for a single door or multiple entrances provide security for residential or commercial tenants.

Senior Living Communities
Optional panic switches and pull cords can be integrated into the GT Series to alert staff of an emergency with a resident.

- Reliable Building Security
- Sophisticated Station Designs
- All-in-One Solution

Secure Building Entrances

Provide 24/7 security with the GT Series. Keep buildings locked and allow tenants to safely identify visitors. If there is an issue at an entrance, tenants can quickly contact security or the manager's office.

170° PanTilt & Zoom video camera for larger viewing area

One touch door release from tenant stations or concierge

Access code keypad for keyless tenant entry into building

Perfect for service entrances, garages, or other secondary locations

Secondary video input at entrance panel for CCTV cameras

Choose from ready-to-install or modular entrance stations

Concierge or doorman visitor screening

USB port on digital entrance panels & GT-MK for programming system

For Main Entrances, Service Doors, Garages, or Self-Service Reception Areas
Entrance Stations

Up to 16 stations per system. Mix and match station styles.

All-in-One Panel

Energy Saver Mode

Modular Panels

GT-DM
All-in-One Entrance Panel
- Audio and video
- Access control
- Scrolling directory
- Upload custom bitmaps for a unique welcome screen
- Motion sensor turns on LCD during Energy Saver Mode
- Voice annunciation
- Stainless steel

GT Series Modular Entrance Panels
Individual Components for Customization
- Audio and video or audio only
- Customize panels to accommodate the needs and budget
- Digital Display with Name Scrolling or Direct Select buttons
- Access control
- Voice annunciation
- Variety of modules

For Building Owners and Property Management Firms

Mix & Match Stations to Provide Levels of Convenience
Studio homes can be equipped with basic GT Series stations while penthouses can have stations with added premium features, such as picture memory, concierge communication, and elevator control.

500 Unique Access Codes
Create different security codes for each tenant to access the building.

No Monthly Phone Bills
The GT Series is a hardwired system, preventing unnecessary monthly expenses.

Access Control Integration
Integratable HID® card reader modules are available to maintain building aesthetics.

Postal Service Access
Install a lock module to accommodate postal locks.

For Doormen or Managers' Offices
Concierge Station
Up to 4 stations per system.

Provide visitor screening and emergency assistance

GT-MK
Concierge / Security Guard Station *(optional)*
- Wall or desk mount

GT Series Benefits

Retain Quality Residents
Provide the technological features today's residents are looking for in their homes.

Increase Property Value
Invest in dependable security products from a reputable manufacturer.

Create Attractive & Safe Homes for Buyers
Make your building stand out from surrounding properties! Design apartments more appealing to tenants with integrated security and convenience features.

Reliable, Dependable Product
Aiphone stands behind its products, which is why the GT Series comes with a three year warranty when installed using Aiphone wire.

Suite Security

Connect up to 4 alarm or utility sensors. When a device is triggered, the unit's siren will activate while alerting Concierge / Doorman Stations of trouble in the apartment.

Water Sensors
Detect leaks early to prevent extensive property damage

Personal Emergency Devices
Provide residents with safety and peace of mind

Emergency Pull Cords
Ideal for tenants living on their own

Basic Tenant Stations

Cost effective alternatives for the budget minded building owner. Mix and match all tenant station styles within a system.

GT-1M-L
