

# AXIS Camera Station S9101 Desktop Terminal

Optimal surveillance for server installations

AXIS Camera Station S9101 Desktop Terminal is a micro form factor desktop terminal optimized for high-definition surveillance video where space is limited. The terminal is preloaded with AXIS Camera Station software to minimize installation time and complements AXIS S1032 or AXIS S1048 rack servers to create a high performing surveillance workstation. AXIS S9101 has validated hardware and software components for optimal surveillance experience, and includes three-year hardware warranty with on-site replacement service. AXIS S9101 supports two monitors in a dual screen setup for system overview. A universal keyboard and computer mouse are included.
