Product Information and SKUs

Why Bose Custom Solutions?

Exclusive products, happy customers, dedicated dealer support, and consistent margins — they're all part of the Bose difference that helps you grow your business.

In addition to our high-end home theater and wireless music options, our exclusive Bose Lifestyle 600 In-wall systems product line is specifically developed to meet the needs of you, the dealer. And since these products are dealer-limited and not available to the mass market, "build a Bose system" options and multi-room SKUs are available only through you to your clients.

BOSE SMART SPEAKERS

Superior Bose sound. Unlimited entertainment possibilities. The new Bose family of smart speakers and soundbars has built-in voice control from Amazon Alexa that puts millions of songs at the tip of your tongue. And with Wi-Fi® and Bluetooth® compatibility, you can wirelessly stream whatever you want, however you want. Plus, future software updates will add new features — like Apple AirPlay 2, coming soon.

Control goes way beyond voice. Enjoy one-touch access to the music you love or manage it all from the Bose Music app. Want more music in more rooms? No problem. The new Bose family of smart speakers and soundbars works together.

BOSE SMART SPEAKERS

BOSE SOUNDBAR 700

Designed to be the world's best soundbar.

An unmatched combination of sophisticated design and exceptional sound brings the wow factor to music, movies, and TV.

Millions of songs at the tip of your tongue with Amazon Alexa built in.

Play integrated Wi-Fi® music services like Spotify® and Amazon Music, or use a Bluetooth® connection to play anything from your phone or tablet.

Experience superior voice pickup from an eight-microphone array that hears you over loud music or across the room.

Control comes easy, with three different ways to manage what you hear: voice, the Bose Music app, or the universal remote.

Access other Alexa features, like weather reports, smart home control, and so much more.

Future software updates will add new features — like Apple AirPlay 2, coming soon.

The new Bose family of smart speakers and soundbars is designed to work together to enjoy music in more rooms.

BOSE SOUNDTOUCH FAMILY

Movies in one room. Music in another room. Or two. Or three. With Bose SoundTouch, you can create a system of wireless speakers throughout your home, filling it with Bose sound. Start with one. Add more later. Each speaker works with your home Wi-Fi® network and Bluetooth® devices so you can play just about anything — music services, Internet radio stations, even your stored music library. Bose SoundTouch speakers work together to play the same music in every room, or different music in different rooms.

BOSE
LIFESTYLE

**Enjoy your music.
It's easy.**

Once you have one Bose SoundTouch system, it's easy to add more anytime. They all work together, so as you go from room to room, your music goes with you. And you can control it all — the music and speakers — with the Bose SoundTouch app.

Access music on popular music services like Spotify® and Pandora®, Internet radio stations, and stored music libraries. Or just play music directly from a phone or tablet using a Bluetooth® connection.
