

4MP Starlight Video Doorbell Kits

Dahua's two new IP surveillance kits include:

- 3 or 5 4MP, Starlight Eyeball Cameras
- 1x 2TB, 4K NVR
- 1x 2MP LincX2PRO Series Video Doorbell

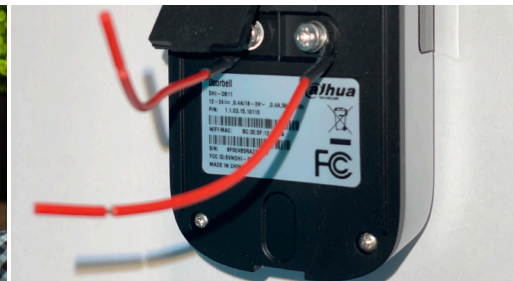

The 2MP video doorbell is ideal for warding off porch pirates and ding-dong ditchers, or for checking to see who's at the door. This compact streaming video doorbell allows you to video-chat with visitors and keep an eye on package deliveries from your iOS or Android device. With a wide 140-degree horizontal field-of-view, you can see the surrounding area beyond the person directly in front of the door.

16GB SD Card - Secures video storage onsite. No cloud subscription needed.

Instant Live View - No latency from the event to the screen.

Powered by a Wired Connection. No battery required.

Compatibility

View LincX2PRO-series video doorbell on Dahua's Mobile DMSS app (for iOS and Android); and add as a Control4 device for smart home integration.
