

32-channel 4K ePoE Network Video Recorder

1U 16 PoE Ports H.265 NVR

System Overview

Dahua's Pro Series network video recorders offer excellent performance and high recording quality for IP video surveillance applications. For applications where details are critical for identification, this professional NVR provides a powerful processor with up to 4K resolution. Additionally, the NVR features a mouse shortcut operation menu, remote management and control, central storage, edge storage, and back up storage options.

Functions

Enhanced Power over Ethernet (ePoE) Technology

Dahua's innovative ePoE technology offers a plug-and-play solution to transmit power and data over long distances via Ethernet or coaxial cables, reducing installation time and saving money. ePoE technology is a viable, cost-effective solution for extending transmission distances and for converting existing, coax-based analog systems into IP systems. For video security and surveillance installers, ePoE technology saves time and money by reducing overall cabling requirements, allowing for existing coax cable to be used, and minimizing the number of peripheral devices needed. For new installations, ePoE offers the ability to design long-distance applications without the need for additional repeaters.

Enhanced PoE encompasses pure IP systems where a single CAT5E cable can carry signals up to 800 m (2625 ft), and IP/Analog hybrid systems where the technology leverages existing analog infrastructure to transmit power and data up to 1000 m (3281 ft) over RG59 coaxial cable. Enhanced PoE is compatible with three connection modes operating over the same network simultaneously: traditional IP networks, long-distance ePoE networks and coaxial networks. ePoE technology seamlessly integrates the latest high-definition IP cameras with a coaxial infrastructure using the Ethernet over Coaxial (EoC) protocol to convert between analog and IP power and data transmissions.

Dewarping Mode

The NVR has the ability to correct the distortion in a circular panoramic view produces by a fisheye lens. The NVR offers various dewarping modes for different installations and configurations.

- Smart H.265+ and Smart H.264+ Dual Codecs
- Maximum 320 Mbps Incoming Bandwidth
- Up to 12 MP Resolution for Preview and Playback
- Ports 1 through 8 Support ePoE and EoC Signal Transmission, up to 800 m (2625 ft) via CAT5E and 1000 m (3281 ft) via RG59
- HDMI and VGA Simultaneous Video Output
- Five-year Warranty*

Intelligent Video System (IVS) Recording

Working with IVS-enabled IP cameras, the NVR recognizes and records video that contains IVS data on all IP channels. The NVR records standard intelligence at-the-edge features, and abandoned or missing objects, Tripwire violations, and intrusion violations. The NVR also records business analysis data – Facial Detection, People Counting, and Heat Map – from IP cameras with built-in Intelligent Business Analytics.

Face Recognition

The NVR stores face recognition video and data from a dedicated facial recognition camera connected to the NVR. The NVR triggers an event if the recognition database on the camera detects a face match.

Smart H.265+

Smart H.265+ is the optimized implementation of the H.265 codec that uses a scene-adaptive encoding strategy, dynamic GOP, dynamic ROI, flexible multi-frame reference structure and intelligent noise reduction to deliver high-quality video without straining the network. Smart H.265+ technology reduces bit rate and storage requirements by up to 70% when compared to standard H.265 video compression.

Automatic Network Replenishment Technology (ANR)

Network Video Recorders with the ANR function automatically store video data on an IP camera SD card when the network is disconnected. After recovery of the network, the NVR automatically retrieves the video data stored on the camera.

Smart Fan

The NVR automatically adjusts the fan speed based on the ambient temperature. Smart Fan technology increases the life of the unit, reduces maintenance costs, and reduces noise.

Automatic License Plate Capture

The NVR automatically captures and stores vehicle license plate images from a dedicated license plate capture camera connected to the NVR. During playback, an operator can perform a license plate search by Time and Date to view thumbnail images of all plates captured during the specified time period. License plate capture technology offers effective entrance/exit management, traffic surveillance, and parking lot monitoring.¹

Technical Specification		Network		
System		Interface	One (1) RJ-45 Port (10/100/1000 Mbps)	
Main Processor	Quad-core Embedded Processor	PoE	16 Ports (IEEE802.3af/at)	
Operating System	Embedded LINUX	102	Ports 1 through 8 support ePoE and EoC	
Audio and Video		ePoE and EoC	Ports 1 through 8	
IP Camera Input	32 Channels		HTTP, HTTPS, TCP/IP, IPv4/IPv6, UPnP, SNMP, RTSP, UDP, SMTP, NTP, DHCP, DNS, IP Filter, PPP0E, DDNS,	
Audio	Input: One (1) Channel, RCA Output: One (1) Channel, RCA	Network Function	FTP, Alarm Server, IP Search (Support Dahua IP camera, DVR, and NVS)	
Display		Maximum User Access	128 Users	
Interface	One (1) HDMI Port One (1) VGA Port	Mobile Operating System	IOS, Android	
	HDMI: 3840 × 2160, 1920 × 1080, 1280 × 1024, 1280 × 720, 1024 × 768			
Native Output Resolution	VGA: 1920 × 1080, 1280 × 1024, 1280 × 720, 1024 × 768	Interoperability	ONVIF 2.4, SDK, CGI	
Maximum Decoding	Four (4) Channels of 8 MP at 30 fps	Storage	Two (2) SATA III Ports,	
	16 Channels of 1080p at 30 fps	Internal HDD	up to 10 TB capacity for each HDD	
Multi-screen Display	1/4/8/9/16/25/36	Auxiliary Interface		
On-screen Display	Camera Title, Time, Camera Lock, Motion Detection, Recording	USB	One (1) USB 3.0 Port (rear panel) One (1) USB 2.0 Port (front panel)	
Recording		RS232	One (1) Port, for PC Communication and Keyboard	
Compression	Smart H.265+, H.265, Smart H.264+, H.264, MJPEG		One /1) Part for DT7 central	
	12 MP, 8 MP, 6 MP, 5 MP, 4 MP, 3 MP, 1080p, 1.3 MP, 720p, D1, CIF		RS485 One (1) Port, for PTZ control	
Supported IP Camera Resolution	(The recording rate is dependent on the maximum	Electrical		
	resolution and frame rate of the connected IP camera.)	Power Supply	Single, 100 VAC to 240 VAC, 50/60 Hz	
Maximum Incoming Bandwidth	320 Mbps	Power Consumption	NVR: < 15.2 W, without HDD	
Bit Rate	16 Kbps to 20 Mbps per Channel	PoE Budget	130 W Total Rated Power, 80% control for protection Maximum 25.5 W for a single port	
Record Mode	Manual, Schedule (Regular, Motion Detection), Alarm, IVS, Stop	Fan	Smart Fan Function, NVR automatically adjusts fan speed based on ambi	
Record Interval	1 to 120 minutes (default: 60 minutes) Pre-record: 1 to 30 s Post-record: 10 to 300 s	Environmental	temperature	
Video Detection and Alar		Environmental		
Trigger Events	Recording, PTZ, Tour, Alarm Out, Video Push, Email,	Operating Temperature	-10° C to +55° C (+14° F to +131° F), 86 to 106 kpa	
50	Snapshot, Buzzer and Screen Tips Motion Detection, MD Zones: 396 (22 × 18),	Storage Temperature	-20° C to +70° C (-4° F to +158° F), 0 to 90% RH	
Video Detection	Video Loss and Tampering	Construction		
Alarm Input	Four (4) Channels	Dimensions		
Relay Output	Two (2) Channels	NVR	375.0 mm x 326.48 mm x 53.0 mm (14.76 in. x 12.85 in. x 2.08 in.)	
Playback and Backup		NVR with PFH101	482.60 mm x 326.48 mm x 53.0 mm	
Sync Playback	1/4/9/16	Rack Mount Tray	(19.0 in. x 12.85 in. x 2.08 in.)	
Search Mode	Time /Date, Alarm, MD and Exact Search (accurate to 1 second)	Net Weight	2.70 kg (6.0 lb), without HDD	
	Play, Pause, Stop, Rewind, Fast Play, Slow Play,	Gross Weight	4.0 kg (8.80 lb), without HDD	
Playback Function	Next File, Previous File, Next Camera, Previous Camera, Full Screen, Backup Selection,	Certifications		
Deslave Manda	Digital Zoom	CE	EN55032, EN55024, EN50130-4, EN60950-1	
Backup Mode	USB Device and Network	Safety	UL 60950-1	
Third-party Support		Electromagnetic Compatibility (EMC)	FCC Part 15 Subpart B ANSI C63.4-2014	
Third-party Support	Dahua, Arecont Vision, Airlive, AXIS, Canon, Dynacolor, JVC, LG, Panasonic, Pelco, PSIA, Samsung, Sanyo, Sony, Watchnet and others	compatibility (Livie)

Intelligence

IVS triggers an alarm and takes a defined action for the following events: • Tampering with the camera. • Camera loses or changes focus drastically. Standard Features • Error writing to an onboard Micro SD card. • Error sending or receiving data over the network. • Unauthorized access to the camera. **Premium Features** An object moves through any part of the scene Motion Tripwire A target crosses a user-defined line. A target enters or exits a defined perimeter. Intrusion A person or object moves the camera to change the scene Scene Change or covers the camera to obscure the scene. Abandoned/Missing A target leaves an object in designated area, or a target removes an object from the same designated area. Object Advanced Features (records data from IP cameras with Advanced Features) Detects and captures a snapshot of a human face in a **Facial Detection**

defined area within a scene.

The NVR requires a firmware upgrade to enable the Automatic License Plate Capture feature. Please contact
Dahua Technical Support for more information about this feature and to obtain the firmware for all Dahua
N52/N54 Pro Series NVRs.

The recorder SMD functions are available only when connected to a Dahua network camera with SMD
functionality. Pair a Smart Motion Detection camera with a Dahua recording device that also offers SMD
functionality to take advantage of SMD alarm filtering and object classification when searching and playing
back recorded video.
