

# No Conduit Needed

**-GENESIS-**

## **Metal Clad Fire Wire**

Save time, money and hassle by eliminating the need to bend, install and mark rigid conduit during cable installation.

## Applications + Features

Permanent red helical tape runs continuously to ensure proper identification as a fire alarm circuit.

Ideal solution for jurisdictions where conduit is required.

Dual-listed MC and FPL to accommodate either non-power-limited (NPLFA) or power-limited (PLFA) fire alarm circuits.

Type MC is permissible to install in plenums per NEC 300.22(C).

### Metal Clad Fire Wire Options

AWG	Number of Conductors	Stranding	Part Number
18	2 + Ground	Solid	4290
18	4 + Ground	Solid	4291
16	2 + Ground	Solid	4292
16	4 + Ground	Solid	4293
14	2 + Ground	Solid	4294
14	4 + Ground	Solid	4295
12	2 + Ground	Solid	4296
