

HOLD, CHARGE & PROTECT IPAD ON TABLE, WALL OR VEHICLE

I PORT LAUNCH is a wireless charging system for iPad designed to hold, charge and protect iPad on a table, wall or in a vehicle. LAUNCH Case powers iPad through wireless inductive charging and grants you complete access to all iPad buttons, microphones, cameras and speakers.

Magnets enable the Case to be mounted to any of the LAUNCH stations. LAUNCH BaseStation allows iPad to be charged on a table top and can be rotated between portrait and landscape orientations.

LAUNCH WallStation mounts iPad on a wall or solid surface and is powered using standard low-voltage in wall wiring or can be wired to a 12V circuit for mounting and charging in vehicles.
