### One Kit. Many Solutions

Choosing an access control system doesn't have to require hours spent sorting through hundreds of software, hardware and reader offerings. Kantech's KT-1 Access Control Kits include all of the essentials needed to get up and running quickly and easily, at an affordable price. Available in different mounting configurations - single gang mount (KT-1) or cabinet mount options (KT1-PCB), the KT-1 kits are an ideal way to experience the value and rich user features that Kantech brings to single door installations. All components are also sold separately which allows the Kantech access control solution to be easily upgraded to meet your growing needs.

### KT-1 One Door Controller

KT-1 is an innovative one door Power over Ethernet controller, supporting two readers – IN/OUT. It supports Ethernet or Serial connectivity. The entire configuration of the KT-1 controller, as well as the programming of the controller onto the EntraPass security management software is done via a single touch-sensitive button. The controller automatically enrolls onto the EntraPass software through automatic device detection. This saves installation time as you do not need to enter manually MAC/Serial numbers.

### Starter Kits

Small and medium sized enterprises can benefit from access control just as much as larger companies. Kantech KT-1 access control starter kits make it easy to get started. These kits include everything needed to get create a complete one door access control solution. Included in the box is the KT-1 hardware, Kantech ioProx reader (P225XSF), the powerful EntraPass security management software (v6.02 and higher) as well as all the peripherals and credentials in between; making the starter Kits an all-inclusive access control offering.

### Expansion Kits

Expansion Kits offer a comprehensive and easy-to-install solution for businesses to expand the size and scope of their existing access control system. Larger enterprises can also use the kits to seamlessly scale their system and secure remote sites. KT-1 expansion kits are ideal for existing customers that wish to expand security and don't require extra EntraPass software licenses or further credentials.

### EntraPass Web & Go

When customers purchase the EntraPass security management software they also have access to the EntraPass Web and Go mobile applications. This offers to customers a powerful and innovative access control solution that installs quickly and can be managed remotely. Manage common security tasks from anywhere!

## One Door Access Control Kit Selection Chart

Model Number	Description
<b>KT-1 Starter Kits</b>	
SK-CE-1-RDR	Starter Kit includes: EntraPass Corporate Edition Software USB Key (v6.02 & higher), KT-1 Controller (single gang mount option), 1 P225XSF Reader & 5 P40KEY Keyfobs/credentials.
SK-CE-1M-RDR	Starter kit includes: EntraPass Corporate Edition Software USB Key (v6.02 & higher), KT-1-M Controller (KT-1-PCB with metal cabinet), 1 P225XSF Reader, 16 VAC/40 VA Transformer, 12 VDC Power supply, KT-BATT-12 12V 7 AH Battery & 5 P40KEY Keyfobs/credentials.
SK-SE-1-RDR	Starter Kit includes: EntraPass Special Edition Software USB Key (v6.02 & higher), KT-1 Controller (single gang mount option), 1 P225XSF Reader & 5 P40KEY Keyfobs/credentials.
SK-SE-1M-RDR	Starter kit includes: EntraPass Special Edition Software USB Key (v6.02 & higher), KT-1-M Controller (KT-1-PCB with metal cabinet), 1 P225XSF Reader, 16 VAC/40 VA Transformer, 12 VDC Power supply, KT-BATT-12 12V 7 AH Battery & 5 P40KEY Keyfobs/credentials.
<b>KT-1 Expansion kits</b>	
EK-1-RDR	Expansion Kit includes: KT-1 Controller (single gang mount option) & 1 P225XSF Reader
EK-1M-RDR	Expansion kit includes: KT-1-M Controller (KT-1-PCB with metal cabinet), 1 P225XSF Reader, 16 VAC/40 VA Transformer, 12 VDC Power supply & KT-BATT-12 12V 7 AH Battery.
EK-1M	Expansion kit includes: KT-1-M Controller (KT-1-PCB with metal cabinet), 16 VAC/40 VA Transformer, 12 VDC Power supply & KT-BATT-12 12V 7 AH Battery.
