M12 FUEL™ Compact Band Saw Kit

The MILWAUKEE® M12 FUEL™ Compact Band Saw Kit utilizes a POWERSTATE™ Brushless Motor and Constant Power Technology™, making it the fastest cutting compact band saw in Unistrut with a cut capacity of 2-1/2" X 2-1/2". The M12 FUEL™ Compact Band Saw offers a compact design and weighs only six pounds, making it the lightest compact band saw on the market. The M12 FUEL™ Compact Band Saw offers integrated blade covers, making it suitable for one-handed use while offering a larger capacity than the existing M12™ Sub-Compact Band Saw. The improved performance, lightweight design, one-handed capability, and increased capacity enhance productivity while lowering fatigue. The compact, portable band saw is equipped with Jobsite Armor Technology™, a proprietary composite material to better protect it from drops and debris and crush zone barriers that absorb impacts. A variable speed trigger and an LED work light provide maximum control. An integrated rafter hook allows for easy storage in-between cuts. The M12 FUEL™ Compact Band Saw is also compatible with the band saw reamer attachment (49-90-2029, sold separately), which easily attaches to the back of the tool, providing the ability to cut and ream with the same tool. This band saw kit includes (1) 12/14 TPI Extreme Metal Blade, (1) M12 REDLITHIUM™ XC4.0 batteries, (1) M12™ Charger, and a contractor bag.

INCLUDES:

- (1) M12 FUEL™ Compact Band Saw (2529-20)
- (1) M12™ REDLITHIUM™ XC 4.0 Extended Capacity Battery Pack (48-11-2440)
- (1) 30-9/16" 12/14 TPI Compact Extreme Thin Metal Band Saw Blade
- (1) Contractor Bag

- ✓ POWERSTATE™ brushless motor delivers the fastest cutting speed in unistrut of any band saw in its class
- ✓ Rafter Hook: Easily store tool between cuts
- ✓ Jobsite Armor Technology™: proprietary composite material and crush zone barriers provide long lasting rugged protection
- ✓ REDLINK PLUS™ Intelligence: the most advanced system of cordless power tool electronics, provides optimized performance and overload protection using total system communication between tool, battery and charger
- ✓ Lightest Compact Band Saw: Allows for more comfortable overhead cuts and less fatigue Integrated Blade Covers allow for One-Handed Use while having a larger capacity than the M12 Sub-Compact Band Saw
- ✓ Conduit Reamer Attachment Compatibility: Reamer attaches directly to back of the tool (attachment sold separately)
- ✓ Variable Speed Trigger: Provides maximum speed control LED light: illuminates work surface for increased accuracy and productivity
