#### **Overview**

Made in the USA, the Milwaukee® Hole Dozer<sup>TM</sup> Hole Saw features Rip Guard<sup>TM</sup>, the strongest tooth form in the industry, backed by the Rip Guard<sup>TM</sup> LimitedLifetime Tooth Break Warranty. Each tooth is built with more steel behind the cutting edge for added strength. The Rip Guard<sup>TM</sup> warranty on tooth breaks is a first for the hole saw industry. The added tooth strength along with 8% cobalt give added life to the teeth, allowing for increased productivity on the jobsite,

as well as continued hole quality, and are backed by the Rip Guard® Limited Lifetime Tooh Break Warranty. The Hole Dozer<sup>TM</sup> includes Plug Jack<sup>TM</sup>, an all access slot design that allows for full access during plug removal. The Plug Jack<sup>TM</sup> gives access lower into the cup for thick material and higher towards the teeth for thin material. With multiple positions to apply leverage and better plug access, Plug Jack<sup>TM</sup> increases productivity and eliminates wasted downtime between holes.

### **Features**

- RIP GUARD™ Limited Lifetime Tooth Break Warranty
- Thermoset Coating, Delivers Up to 2X Faster Cuts in Wood
- PLUG JACK<sup>TM</sup>, an all access slot design for fast plug removal

## Diamond Plus<sup>TM</sup> Diamond Grit Hole Saws

#### Overview

Choose the Milwaukee DIAMOND PLUS<sup>TM</sup> Hole Saw for up to 10X longer life when cutting tile, stone and glass. DIAMOND PLUS<sup>TM</sup> Hole Saws deliver best-in-class performance, with higher-grade diamonds for maximum heat and fracture resistance. An improved braze provides superior diamond retention when cutting hard, abrasive materials. The DIAMOND PLUS<sup>TM</sup> Threaded Hole Saw features large slot geometry for easy plug removal. Designed as the single cutting solution for all tile, stone, and glass applications, DIAMOND PLUS<sup>TM</sup> offers the lowest cost-per-hole on the market. Use it with standard hole saw arbors or with the Angle Grinder Adapter (49-56-7105), or Retractable Starter Bit

with Large Arbor (49-56-7135) for even greater productivity and ease of use.

#### **Features**

- Diamond Plus<sup>TM</sup>: Greater durability and toughness delivers up to 10X longer life
- Higher Grade Diamonds and Improved Braze: Provide best-in-class performance
- Large Slug Ejection Slot: Offers easy plug removal

#### **One-Piece Hole Saws**

## **Recessed Light Hole Saws - Continuous Grit**

### **Overview**

Milwaukee Recessed Light Hole Saws are manufactured using carbide grit for cutting through drywall, plaster, acoustical tile, wood and stucco with mesh. Made with a continuous Carbide Rim, these saws won't tear material and will leave a clean finish.

#### **Features**

- Continual rim for clean cuts
- Carbide grit edge for abrasive materials
- Solid, welded construction provides accurately sized holes

## Recessed Light Hole Saws - Adjustable

#### **Overview**

The Milwaukee Adjustable Hole Cutter offers a one-size-fits-all solution to make holes in drywall and ceiling tile. Cutting diameters range from 2" through 7" with 1/4" increments for almost double the amount of sizes over the competition. Utilizing a QUIK-LOK<sup>TM</sup> arbor for tool-free adjustability as well as laser-etched markings and size indicator, users can quickly and easily identify and change sizes without the use of a hex key. A best-in-class durable and reusable debris shield with spring collar keeps cutting blades level and work areas clean, especially in overhead cutting applications. Choose the Milwaukee Adjustable Hole Cutter for applications in drywall and ceiling tiles including: recessed lights, audio speakers, fire/security systems, and clearance holes.

#### Features

- Quik-Lok™ Arbor for Quick and Easy Tool-Free Adjustability
- 2" through 7" Diameters with 1/4" Increments for a Greater Size Range
- Black Oxide Coated with Laser Etched Size Indicators

### Carbide Grit Hole Saws

#### Overview

Milwaukee Carbide Grit Hole Saws are designed for cutting abrasive materials such as brick, block, cement board, fiberglass and tile. Use a Carbide-Tipped Pilot Bit (49-56-8005) when cutting ceramic tile, brick, and other abrasive materials.

#### **Features**

- Tungsten carbide grit edge for abrasive materials
- Coarse grit & segmented edge for fast cutting
- Wide, angled & offset slots for easy plug access

## SHOCKWAVETM Impact Hole Saws

#### **Overview**

Designed with a robust 1/4" quick change hex shank, Milwaukee SHOCKWAVE<sup>TM</sup> Impact Hole Saws give professionals a hole-making solution to use with impact drivers. Utilizing a thin-wall 8 TPI design, Impact Hole Saws deliver a burr-free cut up to 40% faster than standard bi-metal hole saws. The included ejection spring removes the frustration of manually removing slugs by automatically ejecting the material. A stop shoulder design prevents over-drilling into material and potentially damaging inner components of electrical and junction boxes. Choose Impact Hole Saws for use in plastics and thin-gauge metals up to 1/8" thick.

#### **Features**

- 1/4" Quick Change Hex Shank for use with Impact Drivers
- Thin Wall 8 TPI Design for 40% faster cuts than standard bi-metal hole saws
- Stop shoulder design prevents over-drilling and damaging components
