INTRODUCING SCHLAGE ENCODE™ SMART WIFI DEADBOLT

A *smarter* way in.

The built-in WiFi of the Schlage Encode™ Smart WiFi Deadbolt provides secure remote access from anywhere – no hubs or adapters required – making integration with smart home technology seamless and simple.

One-button enrollment allows for quicker, more convenient installation and setup for homeowners and firmware updates through the app ensure future compatibility.

Introducing **black stainless**.

Black stainless balances rich color with shine. It is versatile enough to be a statement piece while still integrating seamlessly with a home's existing style.

Black stainless brings a refined flair not seen in some other dark finishes, adding sophistication to contemporary construction and elevating traditional homes to a new level.

A clean, high-end look that won't show fingerprints or tarnish easily, black stainless is an approachable modern finish for those looking to break into a more contemporary style.

Door handing

How to determine handing of a door

Handing of all doors is determined from the exterior of the room's entrance.

- If the hinge is on the left side of the door, the door is "left hand" (LH)
- If the hinge is on the right side of the door, the door is "right hand" (RH)
- To order a handed product, please specify LH or RH
- To order a handleset, handing is still determined from the exterior of the door
- We will use that information to determine the handing for the inside of the door
