

Product Announcement: Honeywell Silent Knight 6000 Series

April 2018

Honeywell Silent Knight is pleased to announce the availability of our new 6000 Series line of addressable fire alarm control panels (FACPs) and supporting devices. This next generation of fire panels has been fully redesigned to meet the needs of today's fire and life safety systems offering fire safety professionals more capability and convenience for designing and maintaining small to medium-sized fire systems than ever before.

Introducing the 6000 Series from Honeywell Silent Knight. Simple. Smart. Reliable.

Simple

- Quick and convenient programming via USB
- Field-upgradeable firmware for easy system updates
- Four programmable buttons to automate routine tasks (available on 6820EVS and 6860 remote annunciator)

Smart

- Larger point capacity to support larger and more complex installations (up to 1,110 points)
- Connect up to 17 panels with convenient single panel visibility
- Built-in support for SWIFT® wireless detection for jobs where wiring is difficult or not an option

Reliable

- Built-in dual path IP and POTs communications for cost effective central station monitoring
- Optional cellular modules provide GSM communication and can be remote mounted for optimal reception
- Fully backwards compatible

Contact your preferred Honeywell authorized security equipment distributor for ordering and pricing information.
