

BeatDrop Series

Blending innovation, modern aesthetics and cutting edge acoustics, the BeatDrop™ series speakers are an ideal choice for rooms or venues with open architecture or high-ceilings. The BeatDrop™ is an 8-inch, two-way ported pendant speaker designed with an accurate and wide dispersion pattern. Combined with a low bass extension, the BeatDrop™ provides excellent sound reproduction. It is specifically engineered for popular commercial areas such as sports arenas, restaurants, bars, stores, convention centers, lofts and shopping malls. There are five tap selections for 70v/100v and an 8ohm setting, coming in black or white options. Two Gripple-brand tool-less hanging kits are included for fast and easy mounting. UL 1480 (EUAY) listed.

Gripple®

Includes:
Two Gripple-brand
tool-less hanging kits
