VERTICAL CABLE

Simply Connect.

Our Mission:

Since its creation in 2006 Vertical Cable has been a leader in supplying low voltage cables, connectivity products and accessories. Vertical Cable is internationally recognized for bringing value, quality, technology and price together. Its parent company was founded in 1989 in Fort Lauderdale, Florida.

About Vertical Cable:

Vertical Cable is a leading Stocking/Manufacturer and Distributor of low voltage cable and connectivity products. Known for quality product, customer satisfaction, speedy delivery, and efficient and friendly customer service, Vertical Cable continues to grow its customer base across the USA, Canada and South America.

Products:

Vertical Cable maintains, and constantly updates a high-performing and cost effective product line. Always in place are stringent quality control procedures to ensure that Vertical Cable’s products are inspected and/or tested to comply with strict standards whenever applicable.

Certifications and Standards:

Standards maintained include: UL, c(UL), ETL, ETL C/US, c(ETL), TAA, TIA/EIA and ISO 9001:2008 certifications and standards.

Vertical Cable is a proud member of BICSI.

Warranty:

Vertical Cable fully stands behind its product line, in order to support the customer at every step. A variety of warranties are available: a standard 1-Year Warranty and an extended 15-year Warranty. A special 25-Year Warranty is available upon request. Call for details.

Multiple Locations:

Vertical Cable has multiple stocking locations across the USA. The West Coast location in Murrieta, CA services customers as far as Central USA and Alaska. The North East location in New Windsor, NY services customers from Canada to the east coast, to Central USA. Finally, the Southern Fort Lauderdale location services as far as South America and the Caribbean. Corporate Headquarters are located in Fort Lauderdale, FL. For detailed addresses and phone numbers, please refer to the Contact Us page of this Catalog.

Vertical Cable: A Member of the HDBaseT Alliance

As of 2014 Vertical Cable proudly joins the HDBaseT Alliance. HDBaseT is the best available standard for the recent ultra-HD 4K technologies and power over ethernet. Vertical Cable always stays on top of the most current technologies, to inform its customers about the best available use of the products it stocks. Whether it’s the copper or the service, Vertical Cable always keeps it 100%. Most of VC CATegory cables now support HDBaseT specifications. Look for the logo next to the product listing.

CAT3 Solid PVC Cable (UTP)

CAT3 PVC Bulk Cable is ideal for voice and telephone applications and is also used for data applications. Vertical Cable Twisted Pair cable cuts and strips well, and comes with a ripcord.

Item #	Description
052-434WH	CAT3 Cable, 24AWG, UTP, 2 Pairs, Solid, 1000ft, Pull Box, White ○
052-436WH	CAT3 Cable, 24AWG, UTP, 3 Pairs, Solid, 1000ft, Pull Box, White ○
052-438WH	CAT3 Cable, 24AWG, UTP, 4 Pairs, Solid, 1000ft, Pull Box, White ○

Features:

- Suitable for Communication Applications
- Suitable for Telephony and Security Systems
- Category-3 Unshielded Twisted Pair Cable
- 2 Pair, 3 Pair, 4 Pair
- AWG24 Solid Bare Copper Conductors
- Excellent Attenuation and Crosstalk
- Exceeds EIA/TIA 568 B.2-1 Standards
- ETL Listed, RoHS Compliant
- Supplied in 1000ft Pull Boxes

052-434WH

CAT3 Solid 25, 50, 100 Pair (UTP)

052-442GY

052-443GY

052-442GY

available in 100ft increments

Item #	Description
052-441GY	CAT3 UTP, 24AWG, 25 Pair, 100ft Increments, Gray ●
052-442GY	CAT3 UTP, 24AWG, 50 Pair, 100ft Increments, Gray ●
052-443GY	CAT3 UTP, 24AWG, 100 Pair, 100ft Increments, Gray ●

Features:

- Suitable for Telephone Communication
- Multipair – Cabled together with varying layers
- 24AWG Solid Bare Copper Conductors
- PE Tape, Rip Cord
- ETL CM Verified, RoHS Compliant
- ETL CMR Listed (052-441GY)
- Available in 100ft Increments

CAT3 Plenum 25, 50, 100 Pair (UTP)

Vertical Cable CAT3 Plenum Cable is ideal for voice applications and is commonly used in telephony. It has fewer twists than CAT5E, which makes it easier to work with when punching it down. CAT3 Plenum is mandatory to use where a Plenum fire rating is required. The Plenum rated jacket prevents the spread of fire, and gives off less toxic fumes than the Riser rated jacket. Our CAT3 Plenum cable is high quality and American-Made.

CAT3

available in 100ft increments

Item #	Description
053-444/P/WH	CAT3 UTP, 24AWG, CMP, 25 Pair, 100ft Increments, White <input type="radio"/>
053-444/P/GY	CAT3 UTP, 24AWG, CMP, 25 Pair, 100ft Increments, Gray <input checked="" type="radio"/>
053-445/P/WH	CAT3 UTP, 24AWG, CMP, 50 Pair, 100ft Increments, White <input type="radio"/>

Features:

- High-Performance Communications Cable
- Suitable for Telephony Applications
- Flame Retardant – Type Plenum
- 25 Pair – Easily Identified Color-Striped Pairs
- 24AWG Solid Bare Copper Conductors
- California State Fire Marshal Approved
- ETL Listed, RoHS Compliant
- Available in 100ft Increments

053-445/P/WH

Telephone Cords (Terminated)

Phone Cords serve the sole purpose of transmitting voice data between telephones. 6 position and 4 conductor cords (RJ11) are used primarily for home land lines and single line connections. 6 position and 6 conductor cords (RJ12) have the capacity to carry more data and are therefore used for multiple-line office phones. Vertical Cable conveniently carries both varieties in various lengths in the widely used silver-satin color.

CAT5E Solid (UTP)

CAT5E 350MHz Bulk Cable is the industry standard for data communication applications: structured cabling and computer networks as well as Ethernet. Compared to CAT3 Cable, CAT5E has more twists, which allows for less interference and better signal quality. In addition, the CAT5E allows faster networking and longer cable runs. This Vertical Cable product exceeds the CAT5E 100MHz standard. This CAT5E also fully supports HDBaseT specifications.

CAT5E Solid (STP)

Vertical Cable CAT5E 350MHz Shielded Cable is vital for installations in interference prone areas. In contrast to its CAT5E Unshielded counterpart, shielded cable blocks out electromagnetic interference or EMI, which can slow down proper signal flow. EMI is caused by electrical circuits present around the cable from just about anything: elevators, power lines, electric motors, fluorescent lights, thermostats, air conditioners or microwaves.

CAT5E Solid Plenum (UTP)

CAT5E 350MHz Plenum Cable is made from flame retardant materials. It is used in spaces designated for air-handling such as drop ceilings that conceal return air vents in office buildings. Vertical Cable Plenum cables are designed to meet rigorous fire safety standards, and provide cabling solutions for fire prone areas. This CAT5E Plenum cable is UL Listed.

- Features:**
- High-Performance Data Cable
 - Suitable for High-Speed Data Applications, Fast Ethernet and 155Mbps TP-PMD/CDDI
 - Flame Retardant – Plenum
 - Easily Identified Color-Striped Pairs
 - Unshielded Twisted Pair (UTP) Cable
 - 24AWG Solid Bare Copper Conductors
 - Exceeds TIA/EIA 568-C.2 specifications
 - Excellent Attenuation and Crosstalk Characteristics
 - ETL Verified, UL Listed, RoHS Compliant

CAT5E Solid Plenum (STP)

CAT5E 350MHz Plenum Shielded Cable is made from flame retardant materials. Vertical Cable Plenum cables provide solutions for fire prone areas and adhere to stringent fire safety standards. The shield protects the signal from electromagnetic interference (EMI). EMI is caused by electrical circuits present around the cable from objects such as elevators, power lines, electric motors, fluorescent lights, thermostats, air conditioners or microwaves.

- Features:**
- High-Performance Data Cable
 - 350MHz Bandwidth for Data Applications, Fast Ethernet and 155Mbps TP-PMD/CDDI
 - Category-5E Solid, Shielded Twisted Pair
 - Easily Identified Color-Striped Pairs
 - 24AWG Solid Copper Conductors
 - Exceeds TIA/EIA-568C.2, ISO/IEC 11801
 - CMP Rated
 - UL Listed, RoHS Compliant (and/or TAA Compliant)
 - 1000ft Pull Box

Item #	Description

057-484/S/P/YL	CAT5E 350MHz Cable, Plenum/Shielded, 24AWG, STP, 4 Pairs, 1000ft, Pull Box, TAA Compliant, UL & ETL Listed, Yellow

CAT5E Outdoor Cable, CMX

In comparison to CAT5E Riser, which is made for indoor applications only, the CMX can be installed outside, above ground, and exposed to the sun. Vertical Cable CAT5E 350MHz CMX has the highest UV resistance out of all Vertical Cable outdoor cables. The jacket is LLDPE. The 100% solid bare copper twisted pairs cut and strip just as well, and come with a ripcord.

CAT5E

CAT5E Direct Burial, CMXF (UTP, STP)

This type of CAT5E direct burial cable features a flooded gel core, which helps protect the cable from water underground. This cable features a tough LLDPE jacket and can be buried directly underground. For a longer cable lifetime, conduit is recommended. This cable also comes in a shielded variety to protect from EMI in highly wired areas. This cable is not recommended for use in cell towers, as the inside gel may leak out when the cable is installed vertically.

Item #	Description
059-485/CMXF	CAT5E Direct Burial, Gel Flooded Core, LLDPE Jacket, 1000ft, Pull Box, Black ●
059-487/S/CMXF	CAT5E Direct Burial, Gel Flooded Core, Shielded, Drain Wire, LLDPE Jacket, 1000ft, Spool, Black ●
059-489/WS/CMXF	CAT5E Direct Burial, Gel Flooded Core, LLDPE Jacket, 1000ft, Spool, Black ●

Features:

- High-Performance Data Cable
- 350MHz Bandwidth for Data Applications, Fast Ethernet and 155Mbps TP-PMD/CDDI
- Category-5E Twisted Pair
- Easily Identified Color-Striped Pairs
- 24AWG Solid Copper Conductors
- Exceeds TIA/EIA-568C.2, ISO/IEC 11801
- Gel Filled (Flooded Core)
- Direct Burial applications
- ETL Listed, RoHS Compliant

CAT5E Direct Burial, CMXT (STP)

Vertical Cable CAT5E CMXT either comes with a dual jacket. These elements help protect the cable from water underground. The outer jacket is Low Smoke Zero Halogen. For best results in direct burial applications use conduit with the CAT5E CMXT.

*For best quality CAT5E direct burial use the plain CWT cable found under "CAT5E Outdoor Cable, Cell Tower Applications" below.

CAT5E

Item #	Description
059-486/CMXT	CAT5E Direct Burial, Shielded, Waterblock Tape, Drain Wire, Dual Jacket, LSZH Outer Jacket, 1000ft, Pull Box, Black
059-486/US/CMXT	CAT5E Direct Burial, Unshielded, Drain Wire, Dual Jacket, LSZH Outer Jacket, 1000ft, Pull Box, Black
059-490/WS/CMXT	CAT5E Direct Burial, Shielded, Waterblock Tape, Drain Wire, Dual Jacket, LSZH Outer Jacket, 1000ft, Spool, Black
059-493/CMXT2K	CAT5E Direct Burial, Shielded, Waterblock Tape, Drain Wire, Dual Jacket, LSZH Outer Jacket, 2000ft, Spool, Black

Features:

- High-Performance Data Cable
- 350MHz Bandwidth for Data Applications, Fast Ethernet and 155Mbps TP-PMD/CDDI
- Category-5E Shielded Twisted Pair
- Easily Identified Color-Striped Pairs
- 24AWG Solid Copper Conductors
- Exceeds TIA/EIA-568C.2, ISO/IEC 11801

CAT5E Outdoor Cable, Cell Tower Applications

Vertical CAT5E Cell Tower cables have 2 necessary components. The first is a tough outdoor rated LLDPE jacket - this jacket withstands weather and UV rays. The second is an aluminum and/or braid shield to protect from EMI typically present around cell towers. Our popular CWT cable has a dual jacket for extra weather protection. The CWT is also a great fit for Direct Burial CMXT applications.

Item #	Description
059-494/WS/CWT	CAT5E, Cell Tower Outdoor or Direct Burial, Dual Jacket, LLDPE Outer Jacket, 8-Conductor, Solid Bare Copper, 1000ft Wooden Spool, Black
059-494/RB/CWT	CAT5E, Cell Tower Outdoor or Direct Burial, Dual Jacket, LLDPE Outer Jacket, 8-Conductor, Solid Bare Copper, 1000ft Reel in Box, Black
059-495/S1/CWT	CAT5E, Cell Tower Outdoor, Shielded, Drain Wire, LLDPE Jacket, 8-Conductor, Solid Bare Copper, 1000ft Wooden Spool, Black
059-496/S2/CWT	CAT5E, Cell Tower Outdoor, Shielded, Drain Wire, 95% TC Braid, LLDPE Jacket, 8-Conductor, Solid Bare Copper, 1000ft Wooden Spool, Black

Features:

- Category-5E Shielded Twisted Pair
- Aluminum Foil and/or 95% TC Braid
- High-Performance Data Cable
- LLDPE Outer Jacket
- For Cell Tower Applications
- Easily Identified Color-Striped Pairs
- 24AWG Solid Copper Conductors
- Exceeds TIA/EIA-568C.2
- ETL Listed, RoHS Compliant

CAT5E Outdoor Cable with Messenger for Aerial Applications

In addition to having an outdoor rating, the CAT5E with Messenger includes a high strength exterior supporting wire called "Messenger." Ironically the messenger does not transmit any messages or data. Its sole purpose is to provide stiffness and strength to the cable. This cable is intended for aerial pole-to-pole installations. This cable is also available with an aluminum shield for high EMI areas.

059-497/MESG

Features:

- Ideal for Outdoor Aerial Applications
- Galvanized Steel Messenger for Support
- Outdoor Rated, UV resistant
- LLDPE Jacket
- Easily Identified Color-Striped Pairs
- 24AWG Solid Copper Conductors
- Exceeds TIA/EIA-568C.2 Standards
- ETL Listed, RoHS Compliant
- 1000ft Wooden Spool

CAT6 Solid (UTP) **CHDBT**[™]

CAT6 550MHz PVC Bulk Cable provides even higher performance than our CAT5E Cable, further reducing crosstalk. The cable includes a divider that separates the twisted pairs from one another. CAT6 is standard for Gigabit Ethernet installations. Vertical Cable Twisted Pair cable cuts and strips well and comes with a ripcord. The color-striped pairs are easily identifiable for quick and easy termination. This product is UL Listed. This cable is listed with ETL and fully supports HDBaseT specifications.

CAT6 Solid (STP)

Vertical Cable CAT6 550MHz Shielded Cable is essential for high speed network installations in interference prone areas. In contrast to its CAT6 Unshielded counterpart, CAT6 Shielded cable blocks out electromagnetic interference or EMI, which can slow down and degrade proper signal connection. EMI is caused by electrical circuits present around the cable from just about anything: elevators, power lines, electric motors, fluorescent lights, thermostats, air conditioners or microwaves. In addition, this CAT6 fully supports HDBaseT specifications.

Item #	Description
062-503/S/BK	CAT6 550MHz Cable, 23AWG, STP, 4 Pairs, 1000ft, Black ●

CAT6 Plenum (UTP) 250 MHz Splineless

CAT6 250MHz PVC Bulk Cable provides even higher performance than our CAT5E Cable, further reducing crosstalk. The cable includes no divider. Vertical Cable Twisted Pair cable cuts and strips well and comes with a ripcord. The color-striped pairs are easily identifiable for quick and easy termination. This product is UL Listed.

Item #	Description
066-546/PBX/BL	CAT6, 250MHz, 24AWG, UTP, Plenum, 4 Pairs, Solid,1000ft, Blue ●
066-552/PBX/WH	CAT6, 250MHz, 24AWG, UTP, Plenum, 4 Pairs, Solid,1000ft, White ○

Features:

- High-Performance Data Cable
- Suitable for High-Speed Data Applications,
- Gigabit Ethernet, Fast Ethernet
- Easily Identified Color-Striped Pairs
- Unshielded Twisted Pair (UTP) Cable
- 24AWG Solid Bare Copper Conductors
- Exceeds ANSI/TIA 568-C.2

CAT6 Solid Plenum (STP)

Vertical Cable CAT6 550MHz Plenum Shielded Cable is made from flame retardant materials. It is used in spaces designated for air-handling such as drop ceilings that conceal return air vents in office buildings. Our Plenum cables are designed to meet rigorous fire safety standards, and provide cabling solutions for fire prone areas. The shielding protects the signal from electromagnetic interference (EMI).

Item #	Description
068-679/P/BK	CAT6 STP Shielded High Grade Plenum,1000ft, Wooden Spool, Black ●
068-679/P/BL	CAT6 STP Shielded High Grade Plenum,1000ft, Wooden Spool, Blue ●
068-680/P/GR	CAT6 STP Shielded High Grade Plenum,1000ft, Wooden Spool, Green ●
068-681/P/GY	CAT6 STP Shielded High Grade Plenum,1000ft, Wooden Spool, Gray ●

068-685/P/YL	CAT6 STP Shielded High Grade Plenum,1000ft, Wooden Spool, Yellow ●

Features:

- Category 6, 23AWG, 4 Pair, Solid Bare Copper
- Tape: Clear Mylar Tape
- Drain: Solid Tin Copper
- Shield: Aluminum/Polyester Tape (100% Coverage)
- Jacket Material: Flame Retardant Polyvinyl Chloride
- Nominal Overall Cable Diameter: 0.305 in. (7.747 mm)
- NEC Article 800, UL 444: Type CMP Rating FT6, C(ETL)US, RoHS Compliant
- Electrically Verified to ANSI/TIA/EIA 568C.2
- 1000ft Wooden Spool

CAT6 Low Smoke Zero Halogen (UTP) **HDBT**

Vertical Cable CAT6 LSZH Cable features a special jacket that gives off no toxic fumes when exposed to high temperatures. The LSZH jacket is made from thermoplastic and does not produce the dangerous halogen gas upon combustion. This CAT6 is perfect for use in aircrafts, boats, and railway cars. LSZH cable reduces the risk of toxic fumes accumulating in poor ventilation environments and around sensitive equipment. This CAT6 supports HDBaseT specifications.

Item #	Description

CAT6 Outdoor Rated, CMX

In comparison to riser rated CAT6, which is made for indoor applications only, the CMX can be installed outside, above ground, and exposed to the sun. Vertical Cable CAT6 600MHz CMX has the highest UV resistance out of all Vertical Cable outdoor cables. The jacket is LLDPE. The 100% solid bare copper twisted pairs cut and strip just as well, and come with a ripcord.

CAT6

Features:

- High-Performance Data Cable
- 600MHz Bandwidth for Data Applications, Fast Ethernet and 155Mbps TP-PMD/CDDI
- Category-6 Unshielded Twisted Pair
- Easily Identified Color-Striped Pairs
- 23AWG Solid Copper Conductors
- Exceeds TIA/EIA-568C, ISO/IEC 11801
- Outdoor UV Rated LLDPE Jacket
- ETL Listed, RoHS Compliant
- 1000ft Wooden Spool

Item #	Description
069-559/CMX	CAT6 UV Jacket for Outdoor Use, (CMX) Cable, 1000ft, Wooden Spool, Black ●

CAT6 Direct Burial, CMXF Shielded & Unshielded

CAT6 CMXF direct burial cable features a flooded gel core, which helps protect the cable from moisture/ water. This cable features a tough LLDPE jacket and can be buried directly underground. For a longer cable lifetime, conduit is recommended. This cable also comes in a shielded variety to protect from EMI in highly wired areas. This cable is not recommended for use in cell tower applications

Features:

- High-Performance Data Cable
- 600MHz Bandwidth for Data Applications, Fast Ethernet and 155Mbps TP-PMD/CDDI
- Gel Filled Flooded Core
- LLDPE Direct Burial Rated jacket
- Shielded or Unshielded
- Category-6 Twisted Pair
- Easily Identified Color-Striped Pairs
- 23AWG Solid Copper Conductors
- Exceeds TIA/EIA-568C.2, ISO/IEC 11801
- ETL Listed, RoHS Compliant
- 1000ft Wooden Spool

Item #	Description
069-560/CMXF	CAT6 CMXF Direct Burial, Gel Flooded Core, Unshielded, PE Tape, LLDPE Jacket, 23AWG, Solid, 1000ft, Wooden Spool, Black ●
069-558/S/CMXF	CAT6 CMXF Direct Burial, Gel Flooded Core, Shielded, Drain Wire, PE Tape, 23AWG, Solid, 1000ft, Wooden Spool, Black ●

CAT6 Direct Burial, CMXT

Vertical Cable CAT6 CMXT features a waterblock tape for protection against water/ moisture. This cable has a tough LLDPE jacket which allows the cable to be buried directly underground. Conduit is recommended for an extended life time. This cable can also be used for CAT6 cell tower applications, as the LLDPE jacket has a high level of UV resistance.

Features:

- High-Performance Data Cable
- 600MHz Bandwidth for Data Applications, Fast Ethernet and 155Mbps TP-PMD/CDDI
- Waterblock Tape
- Direct Burial or Cell Tower Applications
- Category-6 Twisted Pair
- Shielded or Unshielded
- Easily Identified Color-Striped Pairs
- 23AWG Solid Copper Conductors
- Exceeds TIA/EIA-568C.2, ISO/IEC 11801
- ETL Listed, RoHS Compliant
- 1000ft Wooden Spool

CAT6 Outdoor Rated With Messenger, Aerial Applications

In addition to having an outdoor UV rating, Vertical Cable CAT6 with Messenger includes a high strength exterior supporting wire, called "Messenger." Ironically the messenger does not transmit any messages or data, and its sole purpose is to provide stiffness and strength to the cable. The cable is also available with a shield.

Features:

- High-Performance Data Cable
- 600MHz Bandwidth for Data Applications, Fast Ethernet and 155Mbps TP-PMD/CDDI
- Galvanized Steel Messenger
- Aerial Applications
- Category-6 Twisted Pair
- Shielded or Unshielded
- Easily Identified Color-Striped Pairs

RG59 Mini, 24AWG, 95% Braid

RG59, a specific type of Coaxial cable, is used for lower frequency video and radio signals. RG59 is the preferred choice for CCTV video surveillance systems. The copper braid shield provides great structural integrity while keeping flexibility and durability. The braid also has lower DC resistance than foil, which is the right fit for minimizing low frequency interference (especially 50 MHz and below). This Mini RG59 features a quality bare copper conductor.

Features:

- Mini RG59
- 24AWG Solid Bare Copper Conductor for optimum signal transmission
- Shield: Aluminum Foil, 95% Bare Copper Braid
- 75 Ohm Impedance, CL2
- ISO 9001:2008
- ETL Listed, RoHS Compliant
- 1000ft Pull Box

RG59 95% Braid for CCTV

Vertical Cable RG59 is a great choice for CCTV video surveillance systems. Just like the mini RG59, it has a bare copper conductor. This cable is available with either type of shield: a bare copper braid or a cost saving CCA braid.

Features:

- 20AWG Solid Bare Copper Conductor for optimal signal transmission
- 95% Bare Copper or 95% CCA Braid Coverage for optimum signal protection
- Indoor Cable Application (non-conduit per NEC) for: CCTV
- ETL Listed, RoHS Compliant, ISO9001:2008

107-1949WH595RB	RG59 Siamese, + 18AWG Power Cables, Bare Copper Conductor, Shield: 95% Bare Copper Braid, 20AWG, 500ft Reel in Box, White

Features:

- Siamese RG59 Coaxial Cable with 18AWG Stranded Power Cables
- 20AWG Solid Bare Copper Conductor
- 95% Bare Copper Braid Coverage for signal protection
- Indoor Cable Application for: CCTV
- CM Rated Jacket
- ETL Listed, RoHS Compliant, ISO 9001:2008
- 1000ft Wooden Spool or 500ft Reel in Box

RG59 Siamese Cable 85% CCA Braid with 18/2 Power Cable

When the installation does not require high interference protection, the 85% CCA Braid RG59 is a great cost efficient solution that gets the job done. This 85% CCA Braid RG59 comes bundled with an 18AWG power cable using a Siamese construction. Vertical Cable offers this lower cost solution for running power and signal in the same cable. The CCS Conductor is another cost saving feature of this cable.

Item #	Description
107-2321/BK	RG59 Siamese, + 18AWG Power Cables, CCS Conductor, Shield: 85% CCA Braid, 20AWG, 1000ft, Reel in Box, Black

107-2324/WH	RG59 Siamese, + 18AWG Power Cables, CCS Conductor, Shield: 85% CCA Braid, 20AWG, 500ft, Pull Box, White

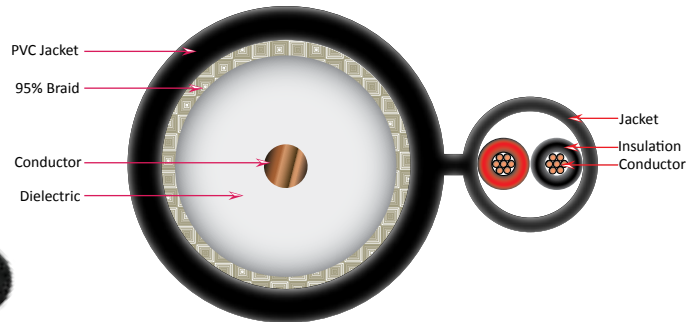

Features:

- Siamese RG59 Coaxial Cable with 18AWG Stranded Power Cables
- Coaxial Cable for CCTV Transmissions
- 20AWG CCS Conductor
- 85% CCA Braid Coverage For Signal Protection
- CM Rated Jacket, CL2 Rated Cable
- ETL Verified, RoHS Compliant, ISO 9001:2008
- 1000ft Reel in Box or 500ft Pull Box

RG59 Siamese Cable 95% CCA Braid

Together with a quality bare copper conductor, this RG59 features a 95% Copper Clad Aluminum Braid (CCA). This is a great cost saving feature for CCTV applications. In contrast to the bare copper braid, the CCA braid has a shorter typical run length. However, this has no immediate implications for CCTV installations since they are mostly short-run projects. This RG59 conveniently carries power and signal in the same cable.

Item #	Description
107-2179/BK	RG59 Siamese, + 18AWG Power Cables, Bare Copper Conductor, Shield: 95% CCA Braid, 20AWG, 1000ft Spool, Black

107-2314/WH	RG59 Siamese, + 18AWG Power Cables, Bare Copper Conductor, Shield: 95% CCA Braid, 20AWG, 500ft Box Reel, White

Features:

- Siamese RG59 Coaxial Cable with 18AWG Stranded Power Cables
- 20AWG Solid Bare Copper Conductor
- 95% CCA Braid for signal protection
- Indoor Cable Application for: CCTV
- ETL Listed, RoHS Compliant, ISO 9001:2008
- Available in a 1000ft or 500ft Reel-in-box
- CM Rated Jacket

RG59 Siamese Cable 95% CCA Braid with Messenger

This Siamese RG59 has an added Messenger Wire for Aerial Applications. The messenger provides support and structure to the cable to prevent it from excessive bending. This cable carries power and signal together just like the regular Siamese RG59. It also has a bare copper conductor, and a 95% Copper Clad Aluminum Braid (CCA).

Item #	Description
107-2179/MESG	RG59 Siamese, W/Messenger, + 18AWG Power Cables, Bare Copper Conductor, Shield: 95% CCA Braid, 20AWG, 1000ft Spool, Black

Features:

- Siamese RG59 Coaxial Cable with 18AWG Stranded Power Cables & Messenger Wire
- 20AWG Solid Bare Copper Conductor
- 95% CCA Braid for signal protection
- Steel Messenger wire
- Aerial Applications
- ETL Listed, RoHS Compliant, ISO 9001:2008
- CM Rated Jacket

RG59 Siamese Plenum 95% CCA Braid with 18/2 Power Cable

Vertical Cable Siamese Plenum Cable is made from flame retardant materials. The Plenum jacket is designed to meet rigorous fire safety standards. Our Siamese RG59 is the most convenient and efficient solution for running power and signal in the same cable in fire prone areas. The 95% CCA Braid provides excellent shielding from interference. The bare copper conductor further maintains the best signal transmission.

Features:

- Siamese RG59 Coaxial Cable with 18AWG Stranded Power Cables
- 20AWG Solid Bare Copper Conductor for optimal signal transmission
- 95% CCA Braid for signal protection
- Indoor Cable Application for: CCTV
- UL Listed, RoHS Compliant, ISO 9001:2008
- Available in a 1000ft Wooden Spool

107-2317/P/WH

Item #	Description
107-2319/P/WH	RG59 Siamese, + 18AWG Power Cables, CMP, Bare Copper Conductor, Shield: 95% CCA Braid, 20AWG, 1000ft Spool, White

RG59 Siamese, Direct Burial, 20AWG, 95% CCA Braid

Vertical Cable RG59 Direct Burial cable is encased in an outdoor jacket, especially designed to withstand outdoor environmental conditions, such as erosion. This cable is intended for direct burial applications. The 95% CCA braid is flexible and durable, yet strong enough to minimize low frequency interference, meeting the industry requirements for EMI shielding. The bare copper conductor ensures for a superior signal quality. This siamese cable efficiently bundles power and signal together, saving the installer precious time.

Features:

- Siamese RG59 Coaxial Cable with 18AWG Stranded Power Cables
- 20AWG Solid BC Conductor
- 95% CCA Braid for signal protection
- Direct Burial (Gel Filled)
- Polyethylene Jacket (PE)
- 75 Ohm Impedance
- ETL Listed, RoHS Compliant, ISO 9001:2008
- 500ft or 1000ft Wooden Spool

107-2179/DB/BK

Item #	Description
107-2179/DB/BK	RG59 Siamese Direct Burial, + 18AWG Power Cables, Bare Copper Conductor, Shield: 95% CCA Braid, Gel Filled, 20AWG, CL2, Polyethylene Jacket, 1000ft Spool, Black
107-2313/DB/BK	RG59 Siamese Direct Burial, + 18AWG Power Cables, Bare Copper Conductor, Shield: 95% CCA Braid, Gel Filled, 20AWG, CL2, Polyethylene Jacket, 500ft Box Reel, Black

RG6 Standard Shield CCS

In comparison to its RG59 counterpart, the RG6 has a thicker, lower resistance conductor, giving it the ability to carry high frequency signals. This makes it the choice cable for CATV applications. The Vertical Cable RG6 Standard Shield features an Aluminum Foil shield and a 60% Aluminum Braid Shield, which reduces EMI.

Item #	Description
107-1235BK6S500	RG6, CCS Conductor, Dual Shield: Aluminum Foil, 60% Aluminum Braid, 18AWG, 75OHM, 500ft Pull Box, Black ●
107-1236WH6S500	RG6, CCS Conductor, Dual Shield: Aluminum Foil, 60% Aluminum Braid, 18AWG, 75OHM, 500ft Pull Box, White ○

RG6 Standard Shield CCS (CMR)

Compared to the standard CM rating, Vertical Cable RG6 Standard Shield CMR features a higher quality Riser Rated jacket. This cable features a cost saving CCS conductor. It also has a Standard Shield, consisting of an Aluminum Foil and a 60% Aluminum Braid.

Item #	Description
107-1234BK6S1RB	RG6, CCS Conductor, Dual Shield: Aluminum Foil, 60% Aluminum Braid, CMR, ● 18AWG, 1000ft, Reel-in-Box, Black
107-1237WH6S1RB	RG6, CCS Conductor, Dual Shield: Aluminum Foil, 60% Aluminum Braid, CMR, ○ 18AWG, 1000ft, Reel-in-Box, White

Features:

- High-Grade RG6 Coaxial Cable
- Suitable for Digital HDTV Applications, CATV and Digital Satellite Installations
- 18AWG Solid Copper-Clad Steel Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid
- Fully Sweep Tested to 3GHz
- CMR, CATV, CL2 (Riser Rated)
- ETL Listed, RoHS Compliant, ISO 9001:2008

RG6 Standard Shield CCS Plenum

This Standard Shield RG6 features a Plenum jacket, which, in comparison to the regular jacket, is made from flame retardant materials. Vertical Cable Plenum cable is designed to meet rigorous fire safety standards, and provides an excellent cabling solution for fire prone areas. This Standard Shield RG6 cable features a cost saving CCS Conductor.

Features:

- High-Grade RG6 Coaxial Cable
- Suitable for Digital HDTV Applications, CATV, Outdoor TV Antennas and Digital Satellites
- 18AWG Solid CCS Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid
- CMP Rated (Plenum)
- UL Listed, RoHS Compliant, ISO 9001:2008
- Supplied in 1000ft Wooden Spool

RG6 Standard Shield CCS Direct Burial

The Vertical Cable RG6 Standard Shield Direct Burial is encased in a gel filled outdoor jacket, especially designed to withstand outdoor conditions, such as erosion, water, and UV light. This cable is designed for direct burial applications. As always, the Standard Shield includes an Aluminum Foil and a 60% Aluminum Braid. This RG6 features a cost saving CCS conductor.

Features:

- High-Grade RG6 Direct Burial
- 18AWG CCS Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid
- 75 Ohm Impedance
- Polyethylene (PE) Jacket
- Direct Burial (Gel Filled)
- ETL Verified, RoHS Compliant, ISO 9001:2008
- Supplied in 1000ft Wooden Spool

Item #	Description

RG6 Standard Shield - Dual Cable Siamese CCS

The Vertical Cable Dual Standard Shield RG6 is a convenient, time saving solution for running multiple RG6 cables along side each other. As usual, the Standard Shield features Aluminum Foil and a 60% Aluminum Braid in each cable. This dual RG6 also features a cost saving CCS conductor, and a quality PVC jacket.

Features:

- High-Grade Dual RG6
- 18AWG CCS Solid Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid
- Dual Coaxial Cable
- Swept Tested to 3.GHz
- 75 Ohm Impedance
- PVC Jacket
- ETL Listed, RoHS Compliant, ISO 9001:2008
- Supplied in 500ft Pull Box

RG6 Standard Shield CCS Direct Burial Siamese with 18AWG Power Cables

This Siamese cable features an outdoor jacket for direct burial applications. This Vertical Cable product features a double shield consisting of an Aluminum Foil and a 60% Aluminum Braid for even better interference protection. The conductor is made from CCS.

Features:

- High-Grade Siamese RG6 Direct Burial with a pair 18AWG Power Cables
- RG6: 18AWG CCS Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid
- Gel Filled (Direct Burial)
- 75 Ohm Impedance
- Power: 18AWG BC Conductors
- Polyethylene Jacket
- ETL Listed, RoHS Compliant, ISO 9001:2008
- Supplied in 1000ft Spool

Item #	Description

RG11 Standard Shield CCS

The RG11 have less attenuation, or the degree at which signal quality is lost. For jobs that demand an extra fine signal over long distances, rely on the RG11. The RG11 is used for antenna connections and HDTV applications. As in the RG6 our RG11 features a Standard Shield: (1) Aluminum Foil & (2) a 60% Aluminum Braid.

Features:

- High-Grade RG11 Standard Shield
- 14AWG CCS Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid
- 75 Ohm Impedance
- PVC Jacket
- ETL Listed, RoHS Compliant, ISO 9001:2008
- Supplied in 1000ft Spool

Item #	Description
107-1032BK/R11	RG11, CCS Conductor, Shield: Aluminum Foil, 60% Aluminum Braid, 14AWG, 3.0 GHz, CL2 Rated, 1000ft Spool, Black

RG11 Quad Shield CCS

Vertical Cable Quad Shield RG11 adds onto the Standard Shield RG11. The quad shield further protects this cable from electric and magnetic fields that may interfere with the signal. Just like in the RG6, the four shields are: Aluminum Foil, a 60% Aluminum Braid, another Aluminum Foil, and a 40% Aluminum Braid.

Features:

- High-Grade RG11 Quad Shield
- 14AWG CCS Solid Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid, Aluminum Foil, 40% Aluminum Braid
- 75 Ohm Impedance
- Meets NEC Article 820 V Rating
- ETL Listed, RoHS Compliant, ISO 9001:2008
- Supplied in 1000ft Spool

Bundled Cable: CAT5E with 16/4 Audio (CMR)

Vertical Cable Bundled Cables are designed for convenience and efficiency. This cable combines the standard 350MHz CAT5E with a 16/4 Audio Cable in one dual cable. Save installation time, and improve cable organization with this bundled cable. The jacket has a higher grade Riser Rating.

BUNDLED CABLE

Features:

- High-Performance CAT5E Data Communications Cable
- Suitable for 350MHz High-Speed Data Applications, Gigabit Ethernet, Fast Ethernet and 155Mbps TP-PMD/CDDI
- Designed for Indoor Installations, CMR Rated Jacket
- CAT5E Unshielded Twisted Pair (UTP) Cable
- 4-Pair – Easily Identified Color-Striped Pairs
- 16AWG 4 Conductor Speaker Cable
- Exceeds EIA/TIA 568 B.2, ISO/IEC 11801 specifications

Item #	Description
294-2176	Category-6 Dual, Siamese Style, 23AWG, UTP, 8C Solid Bare Copper, CMR Rated, PVC Jacket, 1000ft, Blue

High Strand Audio Cable: 12/2, 65 Strand

Features:

- Conductors: Oxygen-Free Stranded Bare Copper
- Stranded Conductors Provide Additional Flexibility
- Insulation Material: PVC
- Cold Bend Test: -20°C, 4 hours No Cracking
- Flame Retardant Test: CMR CL3
- ETL Listed, RoHS Compliant
- Available in a Wooden Spool or Pull Box

Fire Alarm Cable made in USA. FPLR (Power-Limited Fire Alarm Riser Cable) and FPLP (Power-Limited Fire Alarm Plenum Cable) are available. Riser alarm cable can be used in vertical runs floor to floor, having some fire resistant characteristics. Plenum alarm cable can be used in fire prone ducts and spaces where air travels. Both types are typically housed in raceways or metal conduit. All alarm cable conductors are solid, and available in various gauges and numbers of conductors.

FPLR: 14/2 Riser

Features:

- Fire Alarm Cable
- FPLR (Power-Limited Fire Alarm Riser Cable)
- Fire protective signal circuit
- Applications: Smoke alarms and detectors, pull boxes, burglar alarms, addressable fire alarm systems
- 14AWG 2 Conductor
- 100% Solid Bare Copper Conductors
- Unshielded
- MADE IN USA
- ETL Listed, RoHS Compliant

Security & Communications Cable

Including a broad variety of applications ranging from security to intercom to sound systems. Applications include: door controllers, prox sensors, key pads, sound systems, access control and smoke detectors.

Control Cable and **Access Control Cable** features 18AWG and 22AWG conductor pairs for various uses: access control panels, prox sensors, keypads, card readers, alarm systems, speakers, microphones and more. Both Plenum and non-Plenum variants are available. The Plenum version is designed to meet rigorous fire safety standards, and provides cabling solutions for fire prone areas.

Access Control Cable: 22/3Pair (Shielded) + 18/4 + 22/4 + 22/2 Riser

Features:

- 4 Component Lighting Control Cable
- Contains: 22AWG/3 Pair Shielded,
- 18AWG/4Conductor, 22AWG/4Conductor,
- 22AWG/2Conductor
- Each component contains a rip cord
- Overall PVC Riser Rated Jacket
- Applications Include: Access Control Panels,
- Security Panels, Card Readers, Sensors,
- Keypads, Power, Microphones, Speakers, Alarm
- Systems
- ETL Listed, RoHs Compliant
- 500ft Spool

Item #	Description
214-2325/GR	22/3P Shielded + 18/4 + 22/4 + 22/2 Lighting Control Cable Riser Rated, 500ft, Green

Access Control Cable: 22/3Pair (Shielded) + 18/4 + 22/4 + 22/2 Plenum

Features:

- 4 Component Lighting Control Cable
- Contains: 22AWG/3 Pair Shielded,
- 18AWG/4Conductor, 22AWG/4Conductor,
- 22AWG/2Conductor
- Each component contains a rip cord
- Overall Plenum Rated Jacket
- Applications Include: Access Control Panels,
- Security Panels, Card Readers, Sensors,
- Keypads, Power, Microphones, Speakers, Alarm Systems
- UL Listed, RoHs Compliant
- 500ft Spool

Item #	Description
214-2326/P/YL	22/3P Shielded + 18/4 + 22/4 + 22/2 Lighting Control Cable Plenum Rated, 500ft, Yellow

Control Cable: 22/2 (Shielded) + 18/2, CL3 Rated.

SECURITY AND COMMUNICATION

Features:

- Control Cable
- Riser Rated for Indoor Use
- Touch Panels, Key Pads, Expansion Modules, Tuners, Power Limited Control Circuits
- MADE IN USA
- ETL Lisetd, RoHS Compliant
- 1000ft Spool

Plenum Security Cable

Made from flame retardant materials. These cables are designed to meet rigorous fire safety standards, and provide cabling solutions for fire prone areas. It is available shielded or unshielded, and with various numbers of conductors.

Security Cable: **Plenum**, 14/2, Stranded, Unshielded

Features:

- Conductors: Stranded Bare Copper
- Stranded Conductors Provide Additional Flexibility
- Insulation Material: Low Smoke PVC
- Flame Retardant Test: CMP Rated
- Sequential Length Markings on Jacket
- UL or ETL Listed, RoHS Compliant
- 500ft or 1000ft Pull Box

Applications:

- Intercom Systems
- Sound / Audio
- Security Systems
- Power Limited Control Circuits
- Indoor Applications

Features:

- Conductor: Stranded Bare Copper
- Stranded Conductors Provide Additional Flexibility
- Insulation Material: PVC
- Jacket: PVC
- Sequential Length Markings on Jacket
- 500ft OR 1000FT Pull Box
- ETL Listed, RoHS Compliant

Applications:

- Indoor Remote Control of Security
- Intercom Systems
- Sound / Audio Systems
- Door Controllers, Prox Sensors, Key Pads, Access Control, Smoke Detectors
- Indoor Applications

CAT3 V-Max Keystone Jacks

Lifetime Warranty

Vertical Cable CAT3 90° Keystone Jacks are the perfect fit for Modular connector and for voice grade structured cabling systems. These Jacks feature flexible tabs that allow them to be snapped in and out of blank patch panels and wall plate ports. As an added bonus, these jacks are designed to fit and work with our I-Punch tool. The tool terminates all conductors in one punch and saves the installer the lengthy process of individual wire termination. Save installation time by using the I-Punch tool together with the CAT3 Keystone Jacks.

PHYSICAL SPECIFICATIONS

- Dimension (mm) 19.86H x 17W x 31D
- **Housing Materials**
- Housing UL 94V-0 self extinguished plastic
- IDC Housing UL 94V-0 self extinguished plastic
- **Contact Material**
- IDC 110 Contacts Phosphor bronze, nickel plated
- Nose Contacts 50µ gold plating over nickel
- Operating Life Minimum 750 insertions
- Compatibility 22 to 26 AWG Solid

Applications:

- 10Base-T Ethernet
- 155/622 Mbps ATM
- 4/16 Mbps Token Ring
- 100VG-Any LAN

Features:

- Category3 UL Verified
- 4 Conductor solder-plated phosphor bronze contacts
- 110-IDC Contacts (Terminal Block)
- Narrow connectors allow high port density in small areas
- ANSI/TIA-568-C.2, FCC, 3P
- ISO/IEC11801 2nd edition
- UL94V-0 Thermoplastic ABS Housing
- UL Listed, ETL Listed, RoHS Compliant
- 50 per bag

CAT5E Tool-less Keystone Jacks

The Vertical Cable Tool-less Keystone Jack is suitable for data and telephony connections. It is designed to fit in standard keystone wall plates and blank patch panels. Self-terminating (tool-less) no punch down tool needed. Compatible with 24 AWG solid copper conductor. It conforms to ANSI/TIA/EIA T568B.2 standards. UL Listed.

Physical Specifications

- Dimension (mm) 20.0H x 19.0W x 31.6D
- **Housing Materials**
- Housing ABS+PVC (UL 94 V-0)
- IDC Housing Polycarbonate (UL 94 V-0)
- **Contact Material**
- Krone Type Contacts Phosphor Bronze with 50-60 micro inch nickel plated
- Contact Area Minimum 3mm 50 micro inch Gold plated
- Operating Life Minimum 750 insertions
- Compatibility 24 AWG Solid
- IDC Holder Cover ABS (UL 94 V-0)
- Key Lock ABS (UL 94 V-0)

Applications:

- Modular connector for Category 5E UTP structured cabling systems
- High megabit applications such as Gigabit Ethernet and 622 Mbps ATM
- 10Base-T Ethernet
- 155/622 Mbps ATM
- 4/16 Mbps Token Ring
- 100VG-Any LAN

Features:

- Available in blue and white for easy Identification
- Category5E UL Verified
- Tool-less (no punch down tool required)
- ANSI/EIA/TIA 568A/B.2 standard
- ISO/IEC11801 2nd edition EN50173 2nd edition
- Color coded for 568A and 568B
- UL94V-0 Thermoplastic ABS Housing
- UL Listed, ETL Listed, RoHS Compliant
- 50 per bag

CAT5E Shielded Keystone Jack Lifetime Warranty

Vertical Cable CAT5E Shielded Jacks protect the cable connection from EMI. As do all Vertical Cable jacks, these Jacks feature flexible tabs that snap in and out of patch panel and wall plate ports. The IDCs are color coded with both wiring codes, A and B.

Physical Specification

- Dimension (mm) 19.35H x 21W x 46.83D

Housing Material

- Housing & Cap Polycarbonate

Contact Material

- 110/Krone Type Contacts 100µ Inch nickel plated over phosphor bronze
- IDC Operating Life Minimum 250 re-terminations
- Jack Contact Phosphor bronze, 50µ inch gold plating over nickel
- Jack Operating Life Minimum 750 insertions
- Compability 23 to 26 AWG (solid)
- Shielded Cover 50-60µ inch nickel plated over phosphor bronze

Electrical

- Dielectric Strength 1000V RMS for 1min
- Insulation resistance 10mΩ min
- Contact Resistance 2mΩ per contact
- Temperature Range -10°C to 60°C max
- Humidity 10%~65% AN

Features:

- 360° Shielding Structure to prevent EMI
- 110/Krone Type Contacts (Terminal Block)
- Color Coded for 568A and 568B
- EIA/TIA 568A/B standards

Physical Specifications

- Dimension (mm) 19.86H x 17W x 31D

Housing Materials

- Housing UL 94 V-0 self extinguished plastic
- DC Housing UL 94 V-0 self extinguished plastic

Contact Material

- IDC 110 Contacts Phosphor bronze, nickel plated
- Nose Contacts 50µ gold plating over nickel
- Operating Life Minimum 750 insertions
- Compatibility 22 to 26 AWG Solid
- PBC FR-4 1.6mm double sided
- Cap UL 94V-0 rated

Applications:

- 10Base-T Ethernet
- 155/622 Mbps ATM
- 4/16 Mbps Token Ring
- 100VG-Any LAN

Features:

- Available in various colors for easy Identification
- 8 Conductor solder-plated phosphor bronze 110-IDC contacts
- Narrow connectors allow high port density in small areas
- EIA/TIA 568A/B standard
- ISO/IEC11801 2nd edition EN50173 2nd edition
- ANSI/TIA-568-C.2, FCC, 3P
- UL94V-0 Thermoplastic ABS Housing
- UL Listed, ETL Listed, RoHS Compliant
- 50 per bag

CAT6 Shielded Keystone Jack Lifetime Warranty

Vertical Cable CAT6 Shielded Jacks deliver protection from EMI. These work flawlessly with CAT6 shielded cables in indoor applications. Both, A and B, wiring codes are printed on the IDCs.

Physical Specifications

- Dimension (mm) 19.35H x 21W x 46.83D

Housing Material

- Housing & Cap Polycarbonate

Contact Material

- 110/Krone Type Contacts 100µ Inch nickel plated over phosphor bronze
- IDC Operating Life Minimum 250 re-terminations
- Jack Contact Phosphor bronze, 50µ inch gold plating over nickel
- Jack Operating Life Minimum 750 insertions
- Compability 23 to 26 AWG (solid)
- Shielded Cover 50~60µ inch nickel plated over phosphor bronze

Electrical

- Dielectric Strength 1000V RMS for 1min
- Insulation resistance 10mΩ min
- Contact Resistance 2mΩ per contact
- Temperature Range -10°C to 60°C max
- Humidity 10%~65% AN

Features:

- 360° Shielding Structure to prevent EMI
- 110/Krone Type Contacts (Terminal Block)
- Color Coded for 568A and 568B
- EIA/TIA 568A/B standards
- ANSI/TIA-568-C.2, ISO/IEC11801, EN50173-1
- Thermoplastic ABS Housing
- UL Listed, ETL Listed, RoHS Compliant
- 50 per bag

CAT6A V-Max Keystone Jacks Lifetime Warranty

Vertical Cable CAT6A Jacks are compatible with all our CAT6A cables. Additionally, all our CAT6A Jacks are compatible with the I-Punch tool.

KEYSTONE JACKS

Blue

Fit the I-Punch Tool

P. 90

Physical Specifications

- Dimension (mm) 19.86H x 17W x 31D
- **Housing Materials**
- Housing High-Impact Thermoplastic (UL 94 V-0)
- DC Housing Polycarbonate (UL 94 V-0)
- **Contact Material**
- IDC 110 Contacts Solder-Plated Phosphor Bronze
- Nose Contacts 50µ of gold plating over nickel plating
- Operating Life Minimum 750 insertions
- Compatibility 22 to 26 AWG Solid
- PBC FR-4 1.6mm thickness
- Cap High-Impact Thermoplastic (UL 94 V-0)

Applications:

- 10GBase-T Ethernet
- 1000Base-Tx Gigabit Ethernet
- 100Base-Tx Fast Ethernet

Features:

- 8 Conductor solder-plated phosphor bronze 110-IDC contacts
- Improved PCB Design and IDC Geometry provide superior performance
- TIA/EIA 568C.2, IEEE802.3an for 10GBase-T Requirements
- ISO 11801, EN 50173-1 Class EA Specification
- UL94V-0 Thermoplastic ABS Housing

CAT5E Patch Panels in 12, 24, 48 & 96 Port

110 type termination; meets and exceeds CAT5E specifications

Vertical Cable Patch Panels comply with ANSI/TIA/EIA 568C.2 Category 5E performance requirements. Made with high impact plastic and rolled-edge steel. T568A & T568B wiring color schemes on the IDC, make installation easy. They feature writable and erasable marking surfaces for each port on the front panel for efficient system management.

PATCH PANELS

Features:

- Made of sturdy, rolled-edge steel
- Fully enclosed design for protection of printed circuitry during termination
- T568A and T568B wiring color codes
- 19" RMS (Rack Mount Standard) design
- Mounts on any standard 19" rack or wall mount
- Comes with rack mounting screws and washers
- Contact blocks constructed from UL94-V-0 high-impact, fire-retardant ABS or PC material
- 110 type IDC
- Pair punch sequence enables a pair twist within 1/2" of termination
- Meets EIA-310-D specifications
- FCC Part 68, UL Listed, RoHS Compliant

CAT5E & CAT6, 12 Port Mini Patch Panel, With Support Bracket

110 type termination; meets and exceeds CAT5E & CAT6 specifications

Vertical Cable 12 Port Mini Patch Panels provide high performance in a versatile compact unit. They mount using the included Support Bracket saving valuable rack space. Jack adapter contacts feature 50 micro inch gold plated pins and termination contacts are steel plated with nickel for optimal performance. Compatible with standard 110 termination practices, CAT5E and CAT6 Patch Panels from Vertical Cable comply with ANSI/TIA/EIA 568C.2 standards. They are UL Listed.

Item #	Description
041-370M	CAT5E, 110-IDC 12 Port Mini Patch Panel, W/Support Bracket, Black
042-2134	CAT6, 110-IDC 12 Port Mini Patch Panel, W/Support Bracket, Black

Features:

- Space Saving Design
- Made of sturdy, rolled-edge steel
- Fully enclosed design for protection of printed circuitry during termination.
- T568A and T568B wiring color codes.
- Wall Mount Support Brackets Included
- Constructed from UL94-V-0 high-impact, fire-retardant ABS or PC material; High Impact.
- Pair punch sequence enables a pair twist within 1/2" of termination.
- 110 type IDC
- Beryllium copper contacts: 50µ gold-plated pins over 100µ nickel layer.
- Insertion life cycle: 750 cycles (minimum)/IDC 250 cycles (minimum).
- Operating temperature: -40°C to +68°C.
- FCC Part 68, UL Listed, RoHS Compliant

12U, 15U, 20U Wall Mount Enclosure - Swing Out

The Vertical Cable Wall Mount Enclosure - Swing Out, features a sturdy back frame that mounts to the wall. The rest of the Wall Mount can hinge away from the wall; making it even more versatile. The plexiglass protects the contents (audio/video equipment, servers, cables, connections) from any outside damage. The locks and keys provide safety and security.

J-Hooks

J-Hooks are used to support and organize bundles of cable. Vertical Cable offers plain J-Hooks as well as Winged J-Hooks. Winged J-Hooks are attached to vertical steel rods and hold together cable spanning across a room.

Item #	Description
048-121/34	J-Hook, 3/4" Galvanized Steel, Holds up to 16 4-pair CAT5E or 10 4-pair CAT6
048-122/20	J-Hook, 2" Galvanized Steel, Holds up to 80 4-pair CAT5E or 50 4-pair CAT6
048-123/40	J-Hook, 4" Galvanized Steel. Holds up to 300 4-pair CAT5E or 185 4-pair CAT6
048-124/34W14	J-Hook, 3/4" Galvanized Steel, with #12 Wing for 1/4" Rod
048-125/16W14	J-Hook, 1 5/16" Galvanized Steel, with #12 Wing for 1/4" Rod
048-126/16W38	J-Hook, 1 5/16" Galvanized Steel, with Wing for 3/8" Rod
048-127/20W14	J-Hook, 2" Galvanized Steel, with #12 Wing for 1/4" Rod
048-128/20W38	J-Hook, 2" Galvanized Steel, with Wing for 3/8" Rod

Features:

- Galvanized steel; Rust resistant zinc coating
- Hooks available with wing, which mounts on vertically spanning steel rods
- Winged Hooks feature cable holders
- Wing attachments mount on 1/4" or 3/8" rods
- 50 per box

Velcro Cable Ties

Velcro Cable Ties are the perfect solution for organizing and mounting cable. A must have for any installation. The cable ties are not permanent and can be readjusted multiple times. The Vertical Cable Velcro Ties feature a special loop that easily secures to the opposite end. No need to cut these cable ties. The velcro spans the whole length of the cable tie, so it can be secured as loose or as tight as the installation requires.

Item #	Description
045-V12/12BK	12" Velcro Cable Ties, 50 Pack
045-V12/8BK	8" Velcro Cable Ties, 50 Pack

Features:

- The double sided Velcro Tie Wraps feature full surface-area velcro coverage
- No clipping is necessary, in contrast to the traditional tie wrap
- Reuse and readjust the Velcro Tie Wrap multiple times
- Perfect for mounting, organizing & identification applications
- Sticky and durable
- 50 strips per bag

Velcro Cable Ties

Velcro Cable Ties are the perfect solution for organizing. The cable ties are not permanent and can be readjusted multiple times. Cut these cable ties to length. The velcro spans the whole length of the cable tie, so it can be secured as loose or as tight as the installation requires.

Features:

- Material: Polyamide 6.6 (PA66)
- Operating Temperature: -40°F +185°F (-40°C+85°C) continuous
- Flammability: UL94 V2
- Color: Natural, Black
- 100 per bag

Low Voltage Surface Raceway

Vertical Cable Low Voltage Surface Raceway (TSR) is a one piece, non-metallic, adhesive backed latching raceway designed to aesthetically organize and route communications wires including high speed UTP cable and fiber optic cable from the telecommunications room to the work area.

Office White

Ivory

Item	Office White	Ivory
6ft Raceway (.75")	045-TSR1FW-6A	045-TSR1I-6A
6ft Raceway (1.25")	045-TSR2FW-6A	045-TSR2I-6A
6ft Raceway (1.75")	045-TSR3FW-6A	045-TSR3I-6A

Features:

- Tamper resistant, the cover's self-locking, hidden positive latch permits quick re-entry as well as providing a secure installation of premise wire.
- Manufactured from UL 94V-0 rated PVC material
- Fittings incorporate a minimum 1" bend radius per TIA/EIA 568-B and 569-A standards.
- Rubber-based foam tape adhesive with high ultimate bond strength conforms to any surface.
- Flexible hinge allows the raceway to endure numerous openings without creating discoloration or stress cracking.
- Junction boxes can be used with this raceway for electrical or data outlets
- Measuring 6ft in length
- UL Listed
- 20 per box

Surface Raceway Accessories

Vertical Cable provides a complete line of fittings to manage connectivity requirements from the telecommunications room to the work area. Each size of raceway offers numerous fittings, offered in ivory or office white, including TIA/EIA compliant 1" bend radius accessories which help ensure consistent data transmission performance of Category-3, 5, 5E, 6 and 6A communications systems.

078-1022	Universal Cable Stripper for RG59, RG6, RG7, RG11, CATs, Flat Telephone Wire
078-1023	Miniature 5 Adjustable Stripper/Cutter/Punch Down Tool, AWG10-30 Wire, UTP/STP Round Cable
078-1024	Cable Cutter, Cuts Wire up to 0.42/10.7mm
078-1256	Coaxial Stripper, Thumbwind-Style, Adjustable Blade, For RG59 & RG6

Features:

- Miniature Stripper/ Cutter/ Punch Down Tool offers an economical solution for various installation operations in 1 tool
- Cutter cuts a large range of gauge wires up to 8 conductors, including Category, Audio, and Coaxial Cable
- Universal Stripping Tool features a reversible cassette: side 1 for RG59/6, side 2 for RG7/11. Additional hole for networking (CAT) and flat phone cable

Testers

078-2149

Item #	Description
078-2149	Cable Tester for RJ11, RJ45

Features:

- Continuity Tester: Opens Test & Shorts Test
- Ensures that all intended connections work, and no unintended connections exist in your installation; spots shorts
- Tester for testing continuity

CAT5E - Junction Boxes

Vertical Cable Junction Boxes are used to securely join two ethernet cables together. These boxes conceal the connection and deter tampering. The shielded Junction Box protects the connection from EMI heavy environments.

Features:

- Compatible with 110 and Krone Termination Tools
- Screws, adhesive tape included
- Fire Retardant
- High-impact ABS construction
- Suitable for 22-26AWG solid wire
- T568A and T568B color codes
- Shielded or Unshielded
- 50 per bag

Item #	Description
--------	-------------

040-371/C5J/WH	Cat5E Junction Box, White, 568A and 568B Standards, Compatible with 110 & Krone Termination tools
----------------	---------------------------------------------------------------------------------------------------

040-373/C5J/S	Cat5E Shielded Junction Box, 568A and 568B Standards, Compatible with 110 & Krone Termination tools
---------------	-----------------------------------------------------------------------------------------------------

CAT6 - Junction Boxes

Features:

- Compatible with 110 and Krone Termination Tools
- Screws, adhesive tape included
- Fire Retardant
- High-impact ABS construction
- Suitable for 22-26AWG solid wire
- T568A and T568B color codes
- Shielded or Unshielded
- 50 per bag

Item #	Description

245-WP/H3R	HDMI + 3XRCA Decora Wall Plate, Gold Plated, White
245-WP/HF81	HDMI + F81 Decora Wall Plate, Gold Plated, White
028-HWP/71	7.2 Channel Home Theater Wall Plate, Gold Plated, White
028-WP/1FX81	TV Wall Plate with one F81 Connector
028-WP/1X81/3G	Nickel Wall Plate with one 3G F81 Connector
028-WP/2FX81	TV Wall Plate with two F81 Connectors

Features:

- HDMI, TV & Home Theater Wall Plates feature various connection combinations
- Female HDMI ports feature 180° or 90° HDMI coupler jacks
- Audio Connectors up to 7.2 Channel Home Theater, Gold Plated
- Coaxial Connectors up to 2; 3G nickel connector option available

Wall Plates - RJ11 & RJ45 Flush Mount

Vertical Cable RJ11 & RJ45 Flush Mount Wall plates are UL Listed constructed from fire retardant plastic. They come in various colors with matching color screws.

Item #	Description
028-045/4C/IV	RJ11 Wall Plate, 4 Conductor Jack, Ivory
028-046/4C/WH	RJ11 Wall Plate, 4 Conductor Jack, White
028-066/8C/IV	RJ45 Wall Plate, 8 Conductor Jack, Ivory
028-067/8C/WH	RJ45 Wall Plate, 8 Conductor Jack, White

Features:

- RJ11 (4 Conductor) or RJ45 (8 Conductor)
- High-impact ABS construction
- Comes with matching-color mounting screws
- Smooth finish
- Available in white and ivory
- RoHS Compliant
- 25 per bag

Keystone Inserts

Vertical Cable Keystone Inserts are suitable for use with Vertical Cable Audio and Coax cables. The inserts feature two types of plating: gold and nickel.

037-317AL,
318IV, 319WH,
320BK

Item #	Description
037-317AL	F Keystone Insert, Nickel Plated, Almond, 50 per bag
037-318IV	F Keystone Insert, Nickel Plated, Ivory, 50 per bag
037-319WH	F Keystone Insert, Nickel Plated, White, 50 per bag
037-319WH/3G	F-81 Keystone Insert, Nickel Plated, 3Ghz Rated, Blue Insulator, White, 50 per bag
037-320BK	F Keystone Insert, Nickel Plated, Black, 100 per bag
037-325AL	Blank Keystone Insert, Almond, 100 per bag

037-BAN/W/F	Banana Double Female Keystone Insert, Gold Plated, White
037-BAN/W/F/BK	Banana Double Female Keystone Insert, Gold Plated, Black
037-RCA/W/RD	RCA Double Female Keystone Insert, Gold Plated, Red Insulator, Red
037-RCA/W/WH	RCA Double Female Keystone Insert, Gold Plated, White Insulator, White
037-RCA/W/YL	RCA Double Female Keystone Insert, Gold Plated, Yellow Insulator, Yellow

Features:

- Keystone inserts snap in and out of wallplates securely
- Nickel or gold plating available

Coax Connectors

Vertical Cable Coax Connectors are suitable for use with our Coaxial cables. They are used to attach RG Cables to Keystone inserts, which then go into a wall plate. Various options include: compression, crimping or twist-on type; brass or with plastic seal.

Item #	Description
083-1041/CP/S	F Male Connector, Compression Type for RG6, Standard Shielded, 50 per bag
083-1042/CP/Q	F Male Connector, Compression Type, for RG6 Quad Shielded, 100 per bag
083-1043/CP/BNC	BNC Compression Type Connector for RG59, 100 per bag
083-1040/CR/B	BNC Crimping Type Connector for RG59, 100 per bag
083-1041/S	F Male Connector, Twist-On Type, for RG6 Standard Shielded, 100 per bag
083-1042/Q	F Male Connector, Twist-On Type, for RG6 Quad Shielded, 100 per bag
083-1044/CPRG11	Compression Type Connector for RG11 Dual and Quad Shield

Features:

- Compression, crimping or twist-on types available
- Crimping and Compression types work great with Vertical Cable Crimping and Compression Tools
- Twist-on type requires no tool

Punch Down Blocks and Accessories

Vertical Cable's punch down blocks are essential in telephony applications. The copper wires can be punched directly into the IDC slots. Perfect for use with Vertical Cable CAT3/5E Multipair. The wires can be punched down using Vertical Cable punch down tools. Various accessories are available.

043-S89D	Siemon 66 Block Bracket - Beige
043-MC425	Snap on Cover for S66 Punch Block
043-S110AB2100F	Siemon 110 Field Termination Kit, Accessories & Labels Included, Ivory
043-SA1-100	Siemon 66 Block 2 Position Bridging Clip
048-120/WDS	Wire Distribution Spool, White

Features:

- Blocks are the cost saving standards for phone system connections
- Covers and Clips Available
- Wire distribution spool nearly holds in place, guides and retains wires around punch-block installations; for use with CAT3/5E Multipair

Multimode & Singlemode Duplex Patch Cords

Vertical Cable carries the most popular types of 62.5/125 Multimode and 9/125 Singlemode Duplex Patch Cords. These fiber optic cords have ceramic connectors with PC and UPC finish and an OFNR rated jacket. The connectors are secured with epoxy and crimped in place to ensure their durability.

Vertical Cable's 10/100-TX/FX Bridge Media Converters enable connections of 10 to 100 Mbps twisted pair network segments to fiber optic cabling. The fiber connection is SC or ST type Multimode or Singlemode with a distance of up to 60km. They are ideal for FTTH, LAN-to-LAN or LAN-to-WAN fiber networking applications.

10/100Base-TX/FX Bridge 2km Multimode Media Converter

Features:

- Complies with IEEE802.3 and IEEE802.3u 10/100Base-TX and 100Base-FX.
- Automatically configures 10/100Mbps and Full/Half -Duplex in TX Port (RJ45 port)
- MDI/MDI-X Auto Negotiation for 10/100Base-TX Port
- One 100Mbps Fiber Port with Multi-Mode SC or ST Type Connector
- Half/Full -Duplex Mode Selector on Fiber Port
- Wall-Mountable
- FCC Class A & CE Approved
- 1-Year Warranty
- Power Adapter Included
- RoHS Compliant

Item #	Description
265-2038	10/100 Base-TX/FX Bridge Converter 2km, SC Connector (Multimode)
265-2039	10/100 Base-TX/FX Bridge Converter 2km, ST Connector (Multimode)

10/100Base-TX/FX Bridge in 20, 40 and 60km Singlemode Media Converter

Features:

- Complies with IEEE802.3 and IEEE802.3u 10/100Base-TX and 100Base-FX.
- Automatically configures 10/100Mbps and Full/Half -Duplex in TX Port (RJ45 port)
- MDI/MDI-X Auto Negotiation for 10/100Base-TX Port
- One 100Mbps Fiber Port with Singlemode SC or ST Type Connector
- Half/Full -Duplex Mode Selector on Fiber Port
- Wall-Mountable

265-2040	10/100 Base-TX/FX Bridge Converter 20km, SC Connector (Singlemode)
265-2341	10/100 Base-TX/FX Bridge Converter 20km, ST Connector (Singlemode)
265-2342	10/100 Base-TX/FX Bridge Converter 40km, SC Connector (Singlemode)
265-2343	10/100 Base-TX/FX Bridge Converter 60km, SC Connector (Singlemode)

10/100/1000Base-TX/FX Bridge 550m Multimode Media Converter

Vertical Cable's 10/100/1000-TX/FX Bridge Gigabit Media Converters connect your 1000Base-T UTP Ethernet lines to your 1000Base-SX/LX/ZX fiber optic lines quickly and easily. This converter's SC Fiber Connection is Multimode type with a distance of 550m.

Features:

- Supports IEEE 802.3 10Base-T, 802.3u 100Base-TX, 802.3ab
- 1000Base-TX and 802.3z 1000Base-SX Standards
- Automatically configures 10/100/1000Mbps and Full/Half-Duplex in TX Port (RJ45 port)
- MDI/MDI-X Auto Negotiation for 10/100/1000Base-TX Port
- One 1000Mbps Fiber Port with Multimode SC Type Connector with a distance of up to 550m
- Half/Full -Duplex Mode Selector on Fiber Port
- Wall-Mountable
- FCC Class A & CE Approved
- 1-Year Warranty
- Power Adapter Included
- RoHS Compliant

Item #	Description
265-2344	550m 10/100/1000Base-TX/FX Bridge Multimode, SC Connector

10/100/1000Base-TX/FX Bridge 10km Singlemode Media Converter

Vertical Cable's 10/100/1000-TX/FX Bridge Gigabit Media Converters connect your 1000Base-T UTP Ethernet lines to your 1000Base-SX/LX/ZX fiber optic lines quickly and easily. This converter's SC Fiber Connection is Singlemode type with a distance of 10km.

Features:

- Complies with IEEE802.3 and IEEE802.3u 10/100Base-TX and 100Base-FX.
- Automatically configures 10/100Mbps and Full/Half -Duplex in TX Port (RJ45 port)
- MDI/MDI-X Auto Negotiation for 10/100Base-TX Port
- One 100Mbps Fiber Port with Singlemode SC or ST Type Connector
- Half/Full -Duplex Mode Selector on Fiber Port
- Wall-Mountable
- FCC Class A & CE Approved
- 1-Year Warranty
- Power Adapter Included
- RoHS Compliant

Item #	Description
265-2345	10/100/1000Base-TX/FX Bridge Converter, 10km, SC Connector (Singlemode)

Power Adapter for Multimode & Singlemode Media Converter

Features:

- Compatible with any Media Converter
- c(UL) Listed
- Output: DC 5V, 1.2A

Item #	Description
265-2037/ADP	Power Adapter for Media Converter

HDMI *High Speed* Digital Cables with *Ethernet*

NEW FEATURES AT A GLANCE

Audio Return Channel - sends audio data upstream to an A/V receiver

- Content Type - automatic selection of display mode based on content type

HDMI Ethernet Channel - Adds high-speed networking to an HDMI link, allowing users to take full advantage of their IP-enabled devices without a separate Ethernet cable.

- Data Speed Transfer: 10.2 Gbps
- Allows multiple connected devices to share an Internet connection.
- Accommodates current and future IP-based networking solutions for consumer electronics, including DLNA, IPTV and UPnP.

3D Support

- Supports resolutions up to 4K x 2K in 3D @ 30Hz.
- Additional Color Spaces (sYCC601, RGB, YCC601)
- Establishes common shared formats for 3D content for broadcast, movies, and gaming.
- Gold Plated HDMI (Type A 19 Pin) Connectors
- UL Listed and CL2 Rated*
- RoHS, HDCP Compliant

*Various Lengths have Varying Ratings

245-AD/DM-HF	HDMI Male to DVI 18 +1 Male Adapter, Gold Plated
245-AD/HM-DF	HDMI Male TO DVI 18 +1 Female Adapter, Gold Plated
245-AD/HF-HF90	HDMI Female to HDMI Female 90° Adapter, Gold Plated
245-KJC/FF/180	HDMI CouplerJack (F/F) Fits US Wall Plates

245-AD/HM-DF

Category (CAT) Cable

CAT3, CAT5E, CAT6, CAT6A are all Category Cables. These are copper computer networking cables that handle anything from telephone grade signals to gigabit ethernet signals. These cables typically contain 2+ twisted wire pairs. The wires are twisted because this helps cancel out electromagnetic interference (EMI). The CATs come Shielded (STP) or Unshielded (UTP). The shield is usually an Aluminum Foil that protects from EMI. The jackets can have various levels of fire resistance, and can also be outdoor rated.

CCA

Copper Clad Aluminum or aluminum covered with copper. Braid shielding that is made from CCA is a less costly alternative to copper braiding. CCA braids effectively protect RG6 and RG11 signals from EMI. However, this type of braid is not effective for protecting RG59s, which carry very low frequency signals below 50 MHz. Only pure copper braids are used for RG59.

CCS

Copper Clad Steel or steel covered with copper. Copper is considered a more superior conductor, but steel is a more cost effective conductor. Current tends to travel along the surface of the cable, therefore the copper is delegated to the outer circumference of the cable. The five best conductors, starting from the best are the following: (1) Silver, (2) Copper, (3) Gold, (4) Aluminum (5) Iron.

CL2, CL3

Both CL2 and CL3 are types of multi-purpose wire used for security systems, speaker wire, intercom systems, nurse call buttons, and more. The difference between the two is that CL2 is rated for up to 150 volts while CL3 is rated for up to 300 volts. CL3 offers more protection against electric shock because it is rated to carry more voltage.

EIA Unit (U)

Electronic Industries Alliance Unit is synonymous with U (1U, 2U, 3U etc). 1 Rack Unit is 1.750 inches long and spans 2 rack holes.

EMI

Electromagnetic Interference is caused by electrical circuits present around the cable. Excessive EMI can interfere with the cable's signal and disrupt it. Sources of EMI include elevators, power lines, electric motors, fluorescent lights, thermostats, air conditioners and microwaves. In order to protect the integrity of the signal in high EMI environments, shielded cable is necessary. Aluminum shields typically do the job for Category, Security, and Audio Cable. Copper Braids are used together with Aluminum Foil in Coax Cables.

ETL

The ETL Listed Mark indicates to distributors, retailers and customers that your product has been tested by Intertek and found in compliance with accepted national safety standards. ETL began in 1896 when Thomas Edison founded Electrical Testing Labs. ETL is accepted in US and Canada. ETL is comparable to UL.

FPLP

Power Limited Fire Alarm Plenum Cable is an Alarm cable that has a maximal fire-retardant rating. It is used in air handling spaces, which are more prone to fires.

FPLR

Power Limited Fire Alarm Riser Cable is an Alarm cable that has a minimal fire-retardant rating. These cables are typically used for runs between floors and require minimal protection from the spread of fire.

IDC

Insulation Displacement Connectors are a type of wire connection that has two blades for the wire to be punched into. When you punch down the wire into an IDC, the blades cut open the insulation and cold-weld to the wire, creating an automatic pathway for current. The most popular IDC connections are 110 and Krone.

ISO

The International Organization for Standardization sets standards for worldwide proprietary, industrial and commercial products. Founded in 1947, ISO is a non-governmental membership organization. ISO has published about 20,000 standards, covering most industries. Cable and connectivity products that are manufactured with an ISO Certificate conform to world-class specifications. Vertical Cable carries products that are manufactured with an ISO Certificate.

LLDPE (Linear Low-Density Polyethylene)

LLDPE cable jackets, typically used for outdoor rated cable, are a stronger, tougher manifestation of regular PE jackets. Not only are they more flexible under stress, but they also have a wider temperature rating -40°-75°C. LLDPE has a higher tensile strength, higher chemical and environmental stress resistance, which makes for a highest grade outdoor cable jacket.

LSZH (Low Smoke Zero Halogen)

Regular cable jackets are either made from polyethylene or PVC, which both give off toxic halogen smoke when exposed to high heat. LSZH jackets are made from thermoplastic and do not produce dangerous gases when they burn. LSZH cable is used in aircrafts, boats, and railway cars. LSZH cable reduces the risk of toxic fumes accumulating in poor ventilation environments and around sensitive equipment.

Riser (CMR)

Riser cable jackets are made for non-plenum vertical spaces between floors with no air flows. These jackets are also fire retardant to an extent; however, not up to the same level as Plenum. Riser cannot be used in place of Plenum.

PE

PE is a lighter material than PVC, more flexible, and is superior in moisture, chemical, impact, and temperature fluctuation resistance than PVC. This makes PE jackets better suited for outdoor environments than PVC jackets.

Plenum (CMP)

Plenum Rated jackets are made for spaces that house moving air, such as air ducts, drop ceilings, and vents. These spaces are prone to fire. Plenum cable is resistant to fire, and also blocks fire from spreading up or down the cable. Plenum Rated cable is higher quality than CM and Riser Rated cable (CMR). The hierarchy from lowest to highest is the following: PE/PVC, Riser, Plenum, Outdoor. Plenum cable produces less toxic smoke than other jackets, and can be used in place of all lower rated jackets.

PVC

Compared to outdoor PE jackets, indoor PVC jackets have more additives, which make them more rigid. PVC does have a certain fire-retardant rating, but, not up to the same level as Plenum jackets. PVC cannot be used in place of Plenum.

Stranded

Conductors can either come stranded or solid. Stranded cables can have strands ranging from about 10 to as high as about 100. Installers typically prefer to work with stranded cable because it is more flexible and easier to pull through – which saves time. Some argue that stranded cable helps improve high frequency signal loss due to the skin effect. Since the current travels along the surface area of the conductor, higher strand cable increases the amount of surface area for the signal to travel on.

STP

Shielded Twisted Pair. Category cables are classified as UTP or STP. Category cables contain 2+ twisted pairs. The wires twist in a helix to cancel out electromagnetic interference (EMI). The lower the Category number, the less twisted the pairs. Category cables come either Shielded (STP) or Unshielded (UTP). STP cables typically contain an Aluminum Foil shield that protects from excessive EMI environments.

UL (cUL)

Underwriters Laboratories Inc. Is one of several companies approved to perform safety-related certification, auditing, inspection, training & testing by a US federal agency (OSHA). It was started in 1894 by William Merrill. The UL mark tells customers, installers, manufacturers and distributors that the product has been tested and certified to federal safety standards. ETL is a similar agency.

UTP

Unshielded Twisted Pair. Category cables are classified as UTP or STP. Category cables contain 2+ twisted pairs. The wires twist in a helix to cancel out electromagnetic interference (EMI). The lower the Category number, the less twists in the pairs. Category cables come either Shielded (STP) or Unshielded (UTP). UTP cables have no Aluminum Foil to shield the signal from excessive EMI environments.
